This document exists to bring attention to years of inappropriate and manipulative behavior by **gomotion**, a popular YouTuber most prevalent in the DELTARUNE and Five Nights at Freddy's communities. **This is not going to be a short read.** There are a lot of screenshots. I recommend you take breaks reading this and come back to it a few times. There's a lot.

This document is not recommended to be read by anyone under the age of 18, due to frequent sexual themes.

This document is best viewed on a computer. Images may appear low res on mobile, and you may need to zoom in at some points.

The main goal of this letter is to hold Jodie accountable for her actions, and push her to truly make changes to her life and herself. She has been dodging accountability for far, far too long, and I fear for another person (or people) who may make the same mistakes that I did, and not see the warning signs sooner.

Jodie, if you are reading this. Please seek professional, long term psychological help. It's disgusting of you to be using kind-hearted people online as your therapists. You need more help than any of us can provide, or that you alone can provide for yourself. Make a change in your life and improve yourself for the better. For your sake, and for the people you know.

Warning - This document holds screenshots of a sensitive nature, which contain mentions of **suicide, self harm, sexual themes, transphobia, inappropriate interactions with a minor, and emotional manipulation.** Brace yourself accordingly.

Introduction

My name is The Tickler. I am going by this pseudonym so as to not connect this whole ordeal to the rest of my online life. My real identity will not hold any major relevance to

the general argument, and will be redacted in all screenshots for my own privacy and safety.

I will also be redacting the names of other people involved in this situation. I have spoken to each of them privately and have received permission to include screenshots that they may be in. Different people will be discerned with different colors.

Please understand that this is incredibly difficult for me to talk about. Going back through these experiences is painful and stressful. I'm doing this because I fear for anyone else who may be vulnerable and fall into the same trap that I did.

The Beginning

I first began consistently interacting with Jodie on **March 19th, 2020**. I was 15 years old at this time. Jodie was 18. I was pretty active within the FNAF community, and that was how she came into my DMs eventually, asking about a fangame team and if she could be a part of it.
I don't really want to get into this part too much but a situation escalated and it ended in me having a massive fallout with my best friend at that time. Jodie was in the middle of the whole thing and was quick to jump to my defense, and to console me after such a rattling event. I was in an incredibly vulnerable state, and she was the first person there to comfort me.

After a few days of chatting, and eventually joining a server with some of her friends in it and interacting with her in a vc, we had our first DM call. This would be the very first of many.

Over the following weeks through March and April, many of my VC's with her involved her crying and venting to me, and me consoling her and giving the best advice I could. It felt like a lot at once, but I really wanted to be a good friend and I thought at the time that Jodie was very cool and that I was just being a shoulder to lean on.
Even though it would leave me pretty emotionally drained… but the good times outweighed the bad times, right? I really looked up to her and enjoyed the stuff she showed me and I thought she was a cool Youtuber, even if I had never even heard of her before I met her.

She often vented to me about her dysphoria. I really wanted to be a supportive person, so I always tried to be open minded, but looking back I realize now that many of the

things she was having conversations with me about were not things she should have said to a 15 year old, including having conversations with me about her transition that were not appropriate.

i'm not lying
like idk if it's healthy to feel this way but i'm rlly jealous of you

Take note of the date. I said I met her on March 19th- this is *the very next day.*

She also admitted some incredibly, *incredibly* heavy stuff to me in a very short time that left me completely shocked, and this was a point where I did reconsider being her friend. But she seemed desperate for companionship and surely she had changed?

The below images contain graphic and disturbing descriptions of self harm.

jodie 3/23/2020 1:32 PM
yeah well I did just get my ears pierced, I'm pretty much invulnerable to any pain at this point

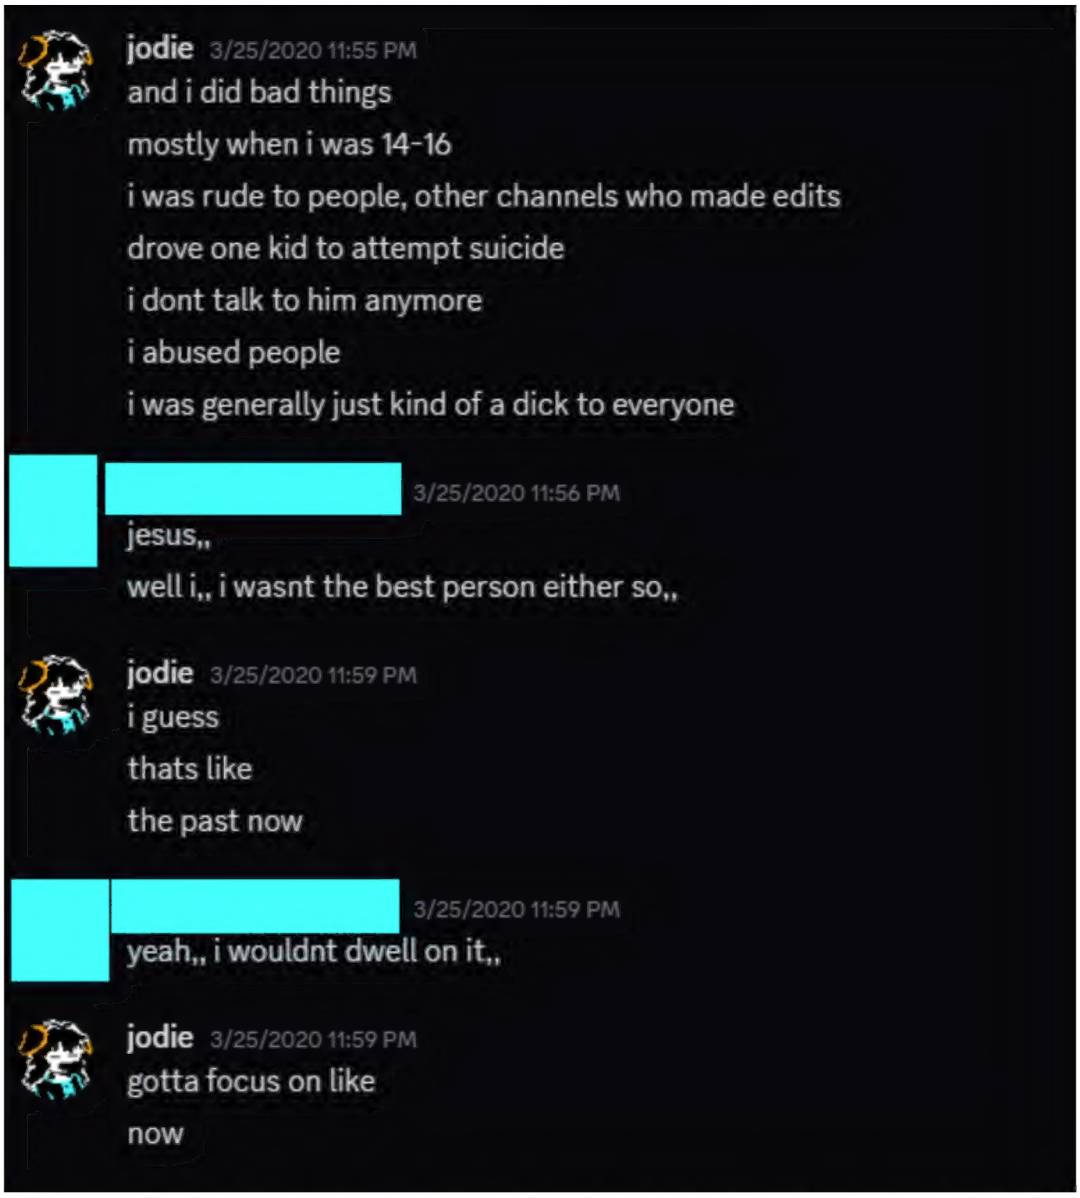
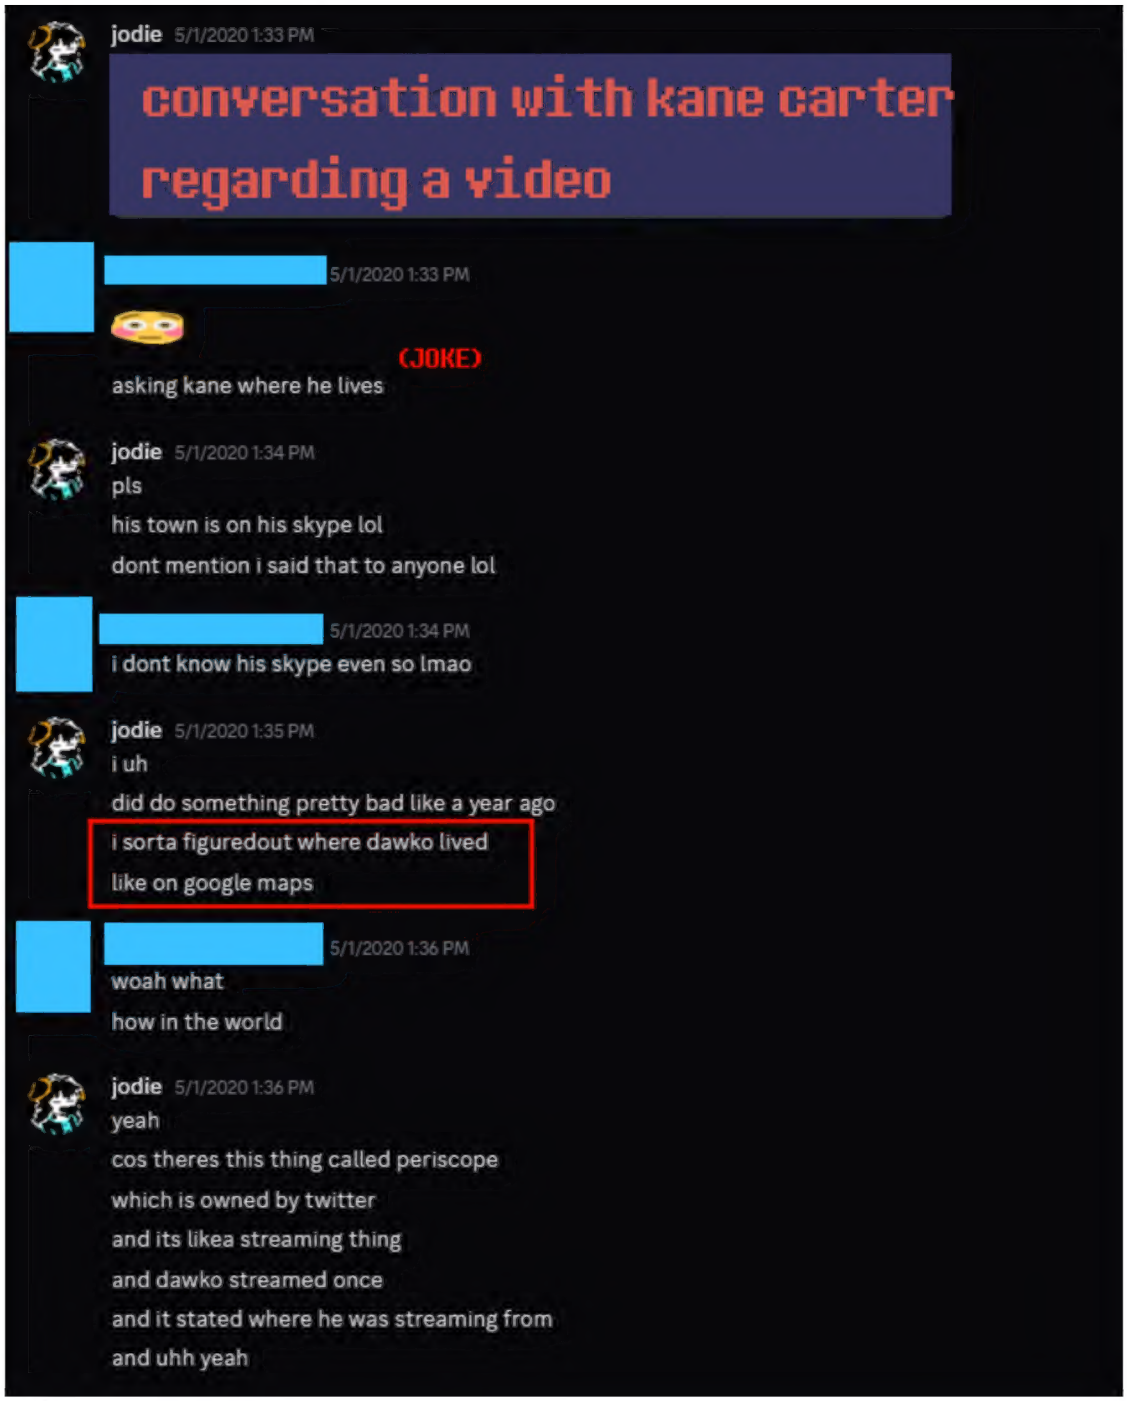
i cant lie though
i am like
really jealous of you
i know its unhealthy
but i cant stop thinking about it
3/25/2020 11:51 PM
what are you jealous of though?? youre so much more successful than i am and probably ever will be
jodie 3/25/2020 11:51 PM
you're such an amazing modeller
and that's gonna lead to so many opportunities
you're also an amazing artist
character designer
you're very creative
i just make dumb retrospectives n shit
3/25/2020 11:52 PM
well even you have great ideas, you showed me that just last night when designing off jodie
jodie 3/25/2020 11:53 PM
that wasnt much heh
3/25/2020 11:53 PM
im honestly really jealous of you heh,, everyone wants to talk to you and be your friend and stuff,, im usually just someone in the background,,
jodie 3/25/2020 11:54 PM
i wouldnt be jealous of me
i might have those opportunities now
but everything i went through to get to this point has been so ultimately damaging to me that i regret a good chunk of it
the speed edits literally gave me depression
3/25/2020 11:55 PM
:(

Why is she constantly so jealous of a 15 year old??



jodie 3/25/2020 11:55 PM
and i did bad things
mostly when i was 14-16
i was rude to people, other channels who made edits
drove one kid to attempt suicide
i dont talk to him anymore
i abused people
i was generally just kind of a dick to everyone
[redacted] 3/25/2020 11:56 PM
jesus,,
well i,, i wasnt the best person either so,,
jodie 3/25/2020 11:59 PM
i guess
thats like
the past now
[redacted] 3/25/2020 11:59 PM
yeah,, i wouldnt dwell on it,,
jodie 3/25/2020 11:59 PM
gotta focus on like
now

This incident genuinely struck a bit of a fear of her into my heart. She elaborated on this situation in a voice chat…. Telling me that she told this kid to turn on his camera so she could watch while he attempted. If you asked me today I would not be able to tell you why I kept speaking to her.



jodie 5/1/2020 1:33 PM
conversation with kane carter regarding a video
5/1/2020 1:33 PM
(JOKE)
asking kane where he lives
jodie 5/1/2020 1:34 PM
pls
his town is on his skype lol
dont mention i said that to anyone lol
5/1/2020 1:34 PM
i dont know his skype even so lmao
jodie 5/1/2020 1:35 PM
i uh
did do something pretty bad like a year ago
i sorta figuredout where dawko lived
like on google maps
5/1/2020 1:36 PM
woah what
how in the world
jodie 5/1/2020 1:36 PM
yeah
cos theres this thing called periscope
which is owned by twitter
and its likea streaming thing
and dawko streamed once
and it stated where he was streaming from
and uhh yeah

Another major area of friction involved my current boyfriend at that time. I really don't know why, but she was incredibly jealous of him to the point where she would lash out rudely and angrily at him for no reason. I believe now that she was so jealous because I was spending time with someone who was not her.

She became incredibly obsessed with me within a very short time. The friendship quickly became codependent but I felt obligated to help because that's what friends are supposed to do…. Not even realizing how truly out of my depth this is.

Venting became an every day occurrence, oftentimes multiple times a day, and I was always expected to help her. She would often ask me to make 'promises' that things would/wouldn't come true, and would only calm down once she heard the answer she wanted to hear. This will become a lot more prevalent later.

jodie 3/25/2020 3:55 PM
I can't be nice to myself though I don't deserve kindness
3/25/2020 3:56 PM
you deserve all the kindness in the world

jodie 3/25/2020 3:58 PM
I'm not that good
I'm still shit
3/25/2020 3:58 PM
but i havent seen any proof that youre shit
jodie 3/25/2020 3:58 PM
there are no redeeming qualities abt me I feel like I'm fucking worthless
3/25/2020 3:58 PM
thats not true

jodie 4/1/2020 1:01 AM

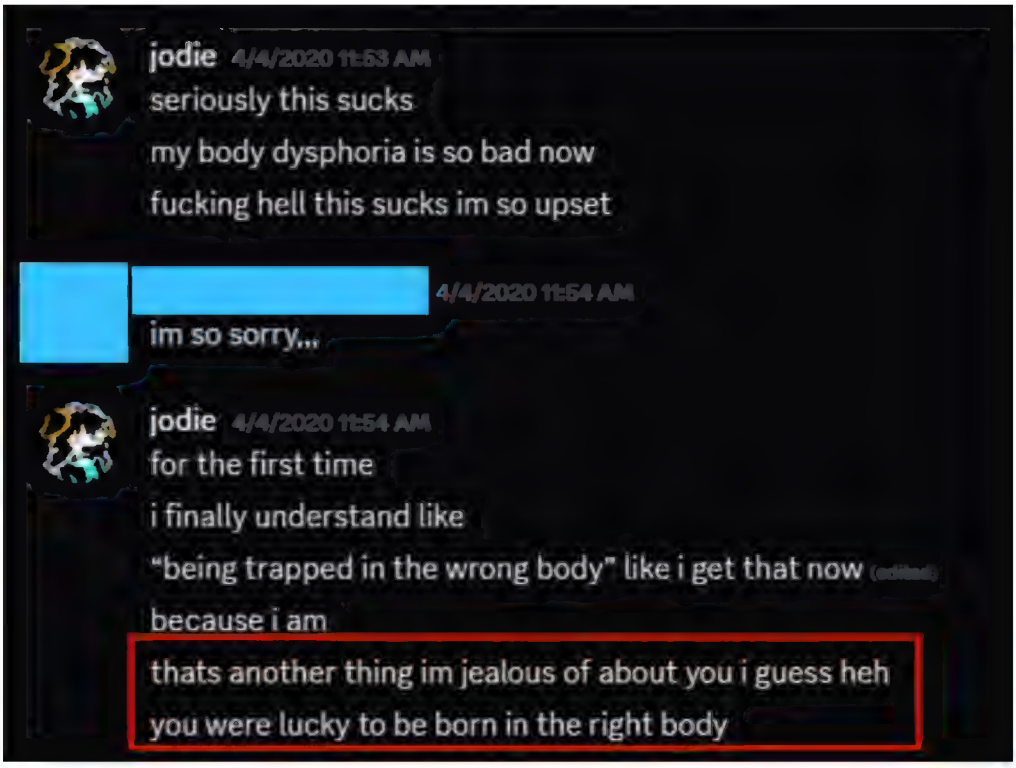
i didnt mention it earlier cos i didnt want you to think it was your fault, and its not i promise
but i sorta was crying over my voice earlier cos im kinda super jealous of yours and it made me sorta really upset when i realised i dont sound anywhere near your voice heh

This level of jealousy towards every aspect of me is incredibly scary.



jodie 4/4/2020 11:53 AM

jodie
iiwas oon his deviaintart and niisawhe 1yyear abnniversary drawiing he made and i burst into tearss heh

An example of her fear of not having a crush. This was a really common topic in our conversations early on. She was extremely jealous of me and my relationship, all of the time.

She would obsess over her jealousy and these issues she makes up for herself, but then literally less than an hour later acts like she's figured it all out and she's sorry and it wont happen again. Well, it did. Constantly.

jodie
oh hey also
i think the reason i still dont fully get crushes yet is why i was so jealous
yknow before you explained it,
i just thought having a crush on someone just was the same feeling as being friends but just amplified a ton
it feels a bit different
jodie
so i was really kinda scared you just saw him as a better friend than me heh..
ohmygosh noooo of course not..
jodie
thats why i was asking you so much if we were definitely best friends, just you and i hehh
osrry about that..

(this is within the same hour as the image above)

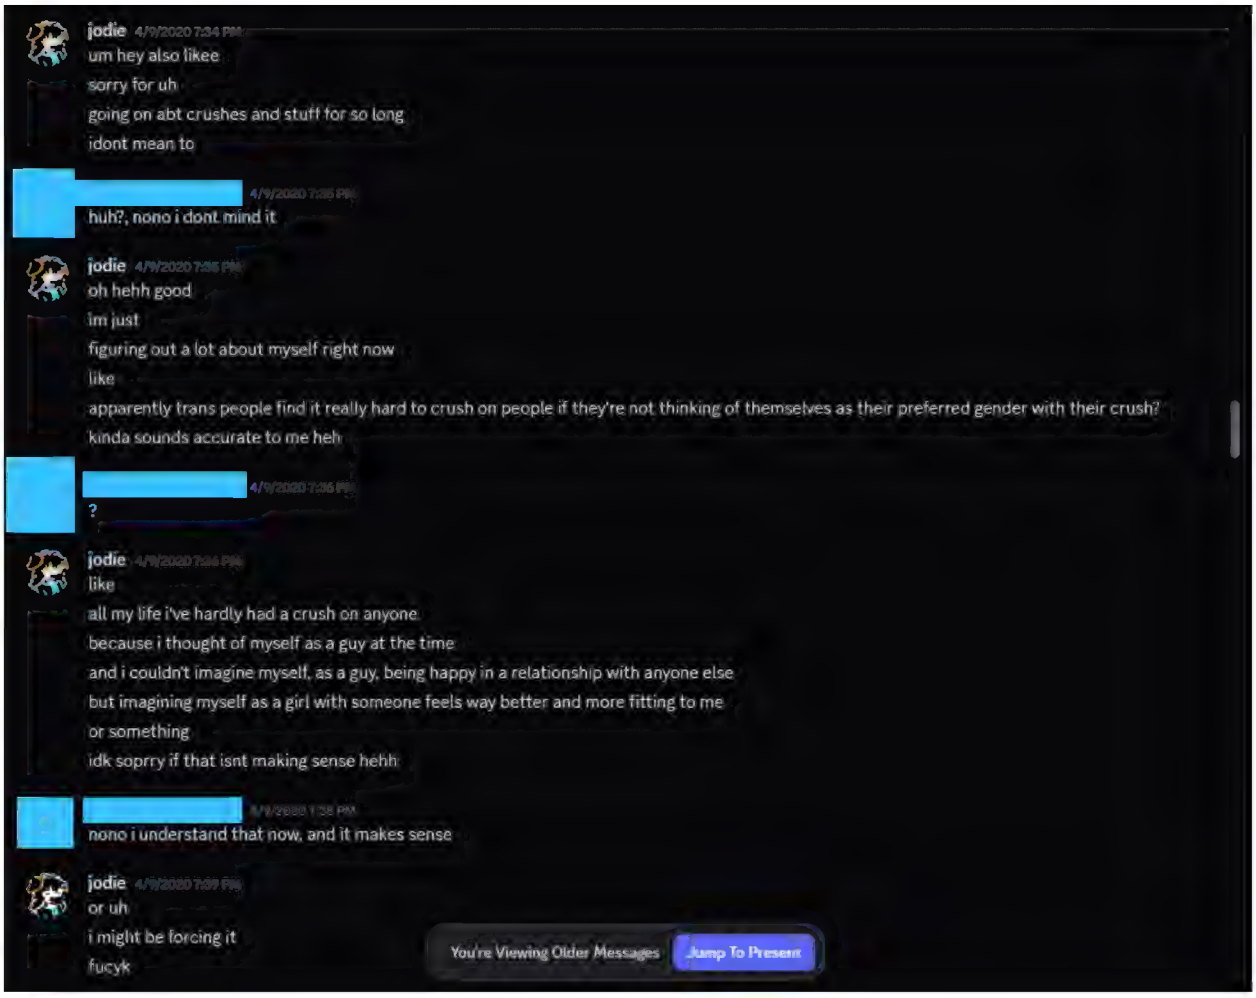
hey sorry about that heh
i have showered
im fresh
feeling relaxed
gonna tidy my room a bit

What the heck happened here?? I genuinely have no idea. But she went from being freaked out to being completely fine within just a few minutes, and I have no idea why. Stuff like this was *constant* through our entire relationship, and maybe now you can see what I mean by her using me as her therapist.

jodie 4/8/2020 10:16 PM
sounds good,,
you still up for vc? or if you're not feeling it right now that's fine
4/8/2020 10:17 PM
yeah,, i just need to stop moping and get up heh,,
jodie 4/8/2020 10:17 PM
aww :(
youre not moping,,
oh also
when i was having my panic attack earlier
i was gonna say something really stupid to
your bf
something i wouldve regretted definitely
but
jodie
hey sorry that was
idunno lol
i'd like to be friends with him

“I wanted to say something really horrible to your boyfriend,but I Didn't! And I'm telling you this!”



jodie 4/9/2020 7:34 PM
um hey also likee
sorry for uh
going on abt crushes and stuff for so long
idont mean to
4/9/2020 7:35 PM
huh?, nono i dont mind it
jodie 4/9/2020 7:35 PM
oh hehh good
im just
figuring out a lot about myself right now
like
apparently trans people find it really hard to crush on people if they're not thinking of themselves as their preferred gender with their crush?
kinda sounds accurate to me heh
4/9/2020 7:36 PM
?
jodie 4/9/2020 7:36 PM
like
all my life i've hardly had a crush on anyone
because i thought of myself as a guy at the time
and i couldn't imagine myself, as a guy, being happy in a relationship with anyone else
but imagining myself as a girl with someone feels way better and more fitting to me
or something
idk soprry if that isnt making sense hehh
4/9/2020 7:38 PM
nono i understand that now, and it makes sense
jodie 4/9/2020 7:39 PM
or uh
i might be forcing it
fucyk

i, Jodie Rose , am holding you, my full real name to you crossing your heart that i shall one day have a crush on someone

This exact kind of behavior made it incredibly hard for me to be her friend and also continue having a boyfriend, and part of me wonders if that was intentional. For a while she repeatedly expressed her fear of never getting into a relationship, and then it was a fear that she would get a crush on me.

Very early into our friendship- like, within a week- Jodie started pushing the idea of me being her “younger sister” and referring to us as “basically legally siblings”. This is so, so , so fucking horrifying for me to look back at. Please remember I was STILL 15 when she began doing this… Around this same time, the idea of her coming to visit me IRL also started being thrown around.

I foolishly justified this in my head at the time as “it’s just platonic, like guys saying they're bros” but looking back this was Not an appropriate thing to be normalized between a minor and an adult.

Our friendship developed, and the codependency grew stronger. Going into this friendship initially, I was really really afraid of ending up in some kind of codependent situationship, because I had literally just gotten out of a relationship like that with my former friend and it was a horrible mess. Unfortunately, I ended up right back in an extremely similar situation.

I know that dysphoria is a powerful demon that affects people deeper than I am probably ever capable of imagining. I know that being transgender is hard. It is not EVER appropriate to vent heavily about extremely personal and potentially sexual themes TO A MINOR. EVER.

Warning: many of the following screenshots contain content of a sexual nature.

Why did this interaction need to happen??? We were talking about plastic…

none of those people would
so icant even win in that regard
this is just the fucking worst
just try and calm down,,
listen,, youre not being forced into surgery or anything,, this is all your own decision,, you can take as much time thinking as you want,,
jodie
but i feel like
like even people who hated their dick
like me
who got the surgery
ended up regretting it
you dont have to do it if youre too scared to,,
jodie
but i just dont want my dick its
its distressing

Our friendship continued in this fashion, with every day out-of-the-blue venting and me consoling her. She started hormones at some point in late 2020, and these conversations were common. She made a private server with me and a couple other friends that she knew. This server lasted for a while, and then I made my own, where most of us ended up moving to. Worryingly, a common question people would ask me was if we were dating.

LATE 2020-2021

In my server, Jodie wanted a private channel and vc for herself and people she specifically chose to be in this secret chat. It was initially supposed to be for when she got overwhelmed in VC or something, but this situation spiraled so out of control that the channel got archived forever. I never thought you could recreate class warfare in a discord server, but I accidentally created a space for that. Oops.

To anyone reading this was part of that experience: I am so sorry. I only had good intentions creating this space for her, but I was 16, and the situation truly spiraled beyond something I could handle by myself. I'm not going to dig through that absolute

nightmare of a discord channel for the sake of a lot of people's privacy. But please know, I am so truly sorry for foolish things I did when I was 16.

THE “CRUSH”

In 2021, I was experiencing homelessness and also serious relationship problems with my then-boyfriend. Jodie’s fear of not having a crush was still a common topic.

However, one day Jodie approached me with something that sounded exciting: She said she had a crush on someone, who was a mutual friend of ours who met her by being a fan of her channel. Things seemed very hopeful!
For 3 days.

Jodie dumped this friend 3 days after admitting a crush to them, and it was horrible. My friend’s self-worth was damaged for an extremely long time after this event, and Jodie just felt “they needed to get over it.”

The victim was **17 years old** when this happened. Jodie was 19.

I saw this as a horrible abuse of the feelings of an already vulnerable friend of mine, and thinking about this situation still makes me viscerally angry.

In the screenshots below, you can see her change her mind in real-time.

A statement from the victim, who wishes to remain anonymous;

“Hi I’m the individual who was crushed on. To say this was a rough time in my life would be an understatement. Living in a small transitional house while in the process of moving counties, having little access to my friends. When Jodie approached me about

having feelings for me I felt a lot of joy for the first time in months. Unfortunately that did not last. For months I held onto hope and feelings that would not again be reciprocated. It made me struggle to figure out how to even approach Jodie and left me confused about my feelings. I got so stressed out about life that I was throwing up almost every day. I hope that this helps to show Jodie how her actions affect people."

LATE 2021-2022

In late 2021, without my knowledge, Jodie approached one of our mutual friends in a panic. She had a serious admission to make.

The following content contains graphic conversations of inappropriate behavior involving a minor.

I'm not even sure how I could possibly preface this. Throughout this document so far, we've seen clear examples of Jodie's jealousy and obsession with me, as well as her manipulative tactics with the goal of keeping me as her friend forever.
At this point in our friendship, I felt that if I ever voiced any frustration, anger, or generally negative emotion towards her, or something she has done, she would break down and panic and cry and beg for my forgiveness. I felt like I was a bad person if I ever got mad at her. I know now that I was not the only person who felt this way.

Everyone involved in what you're about to see wishes that they reacted differently.

Statement from Pseudonymous Grigori:

"I have known Gomotion for roughly the same amount of time as I've known [The Tickler], sharing a lot of Discord spaces with them and being within their general friend bubble for years. Although my messages with Gomotion were rather brief, some things stick out to me: she would usually call me slurs when I had noted that they made me uncomfortable in the past, would raise her voice in VC to me at times, just generally had a hairpin trigger, and--most relevant to what is being discussed in this section--would mostly enter my DMs just to vent about issues. Usually I'm fine with being the friend people vent to, but it felt excessive at times and she would dump some pretty heavy stuff on me without much warning beyond a "can we talk". Some of this stuff was pretty weird, but nothing is as weird as what she had confessed to me regarding [The Tickler]: **that she would pleasure herself to art made by them, imagining herself as them or**

characters drawn by them in their art. This is, obviously, extremely gross and odd, and should have set off 500 alarm bells in my mind; however, with the way she would constantly crytype and ask for reassurance that they wouldn't leave her and how scared she was, it manipulated me into feeling like I would be a really bad person if I told her off or came to them about it. To me, at the time, it just seemed like an extremely twisted way to cope with dysphoric feelings; and that may still be what it was, but it is still concerning behavior to think and behave like this behind the back of someone close to you like this."

Statement from Anonymous Quandavius:

"I've known Jodie since about when I joined [The Tickler]'s server back in 2020. Before that, I had only heard brief things about her and nothing more, and we were mutuals for quite a bit. However, when I joined that server is sort of how I ended up talking to her more. It was refreshing being able to talk to different people (due to how bad my trust issues were at the time), and I really enjoyed talking to Jodie.

I had heard a lot from other friends regarding her behavior in the past (about 2016?). I didn't pay mind to it because it was so long ago and obviously, people can change. She was nice to me and I enjoyed talking to her. These are one of those moments where I wish I had listened to my friends.

There were often times in vcs where she made me feel lesser, insulting me and berating me, even when I was trying to have a genuine conversation. I was a punching bag, but I just had to laugh it off.

[The Tickler] broke up with Jodie back in December 2024, and during that time, I offered my support as her friend in my dms. It was a mentally taxing couple of months with constant back and forths with her, Jodie constantly pushing a boundary, and me getting mad at her. I constantly, foolishly, believed that she would change, and every time it felt like that change was occurring, she'd fall right back into the same holes she dug.

The breaking point for me was a friend telling me Jodie saw [The Tickler] interacting with a trans woman on BlueSky (this also indirectly confirmed she was STILL stalking [The Tickler], despite me telling her over and over not to). She took what the trans woman was saying to [The Tickler] as flirtatious and began shit talking her, saying things as vile as "She doesn't even pass". This was only back in May. With that happening, as well as her total transphobic rants on Twitter, I knew things weren't going to change. Since then, I have blocked her on everything and haven't spoken to her since.

I've witnessed a lot of my friends do everything in their power to support Jodie and make sure she was okay, especially with her constant need to freak out in her mutuals server. Now, all of those friends do not talk to her. She needs to be held accountable for every single one of her actions, no matter what happens next. If you're reading this Jodie, I'm sorry I ever trusted you. “

One more warning for graphic sexual conversations involving a minor. The following screenshots might be highly distressing to read.

Hey hey its ok. Its what happens in your brain subconsciously because of how it works. It just doesn't reflect who you are as a person. And you even yourself see it as a bad thing but its just uncontrollable.

bbut i have this horrible gross secret...

So. Jodie spoke to the person above about this in August 2021.
She did not admit this to me until March 2022. She kept this hidden from me for *years,* going behind my back and telling my friends to keep this horrible secret from me.

Even when she did finally admit it in March 2022, she didn't tell the entire truth. She made this confession to me in a voice call, which I realize now opened me up even further to manipulation. I cannot get any evidence of this call. But, there are messages from after where we speak about it.

Jodie again approached the same friend in a panic in March 2022, after not speaking to them for 2 months.

In all honesty its not really something you need to discuss or even bring up and trust me when I say that you can move on from this
I'll be honest in saying that i've done similar stuff years in the past before I met any of you but I don't let it define me now or change my friendships currently
I know its hard but you have to accept to yourself what happened and try your hardest to move on
its not worth risking the damage it could do to your friendship if you bring it up when its something that doesn't even happen anymore

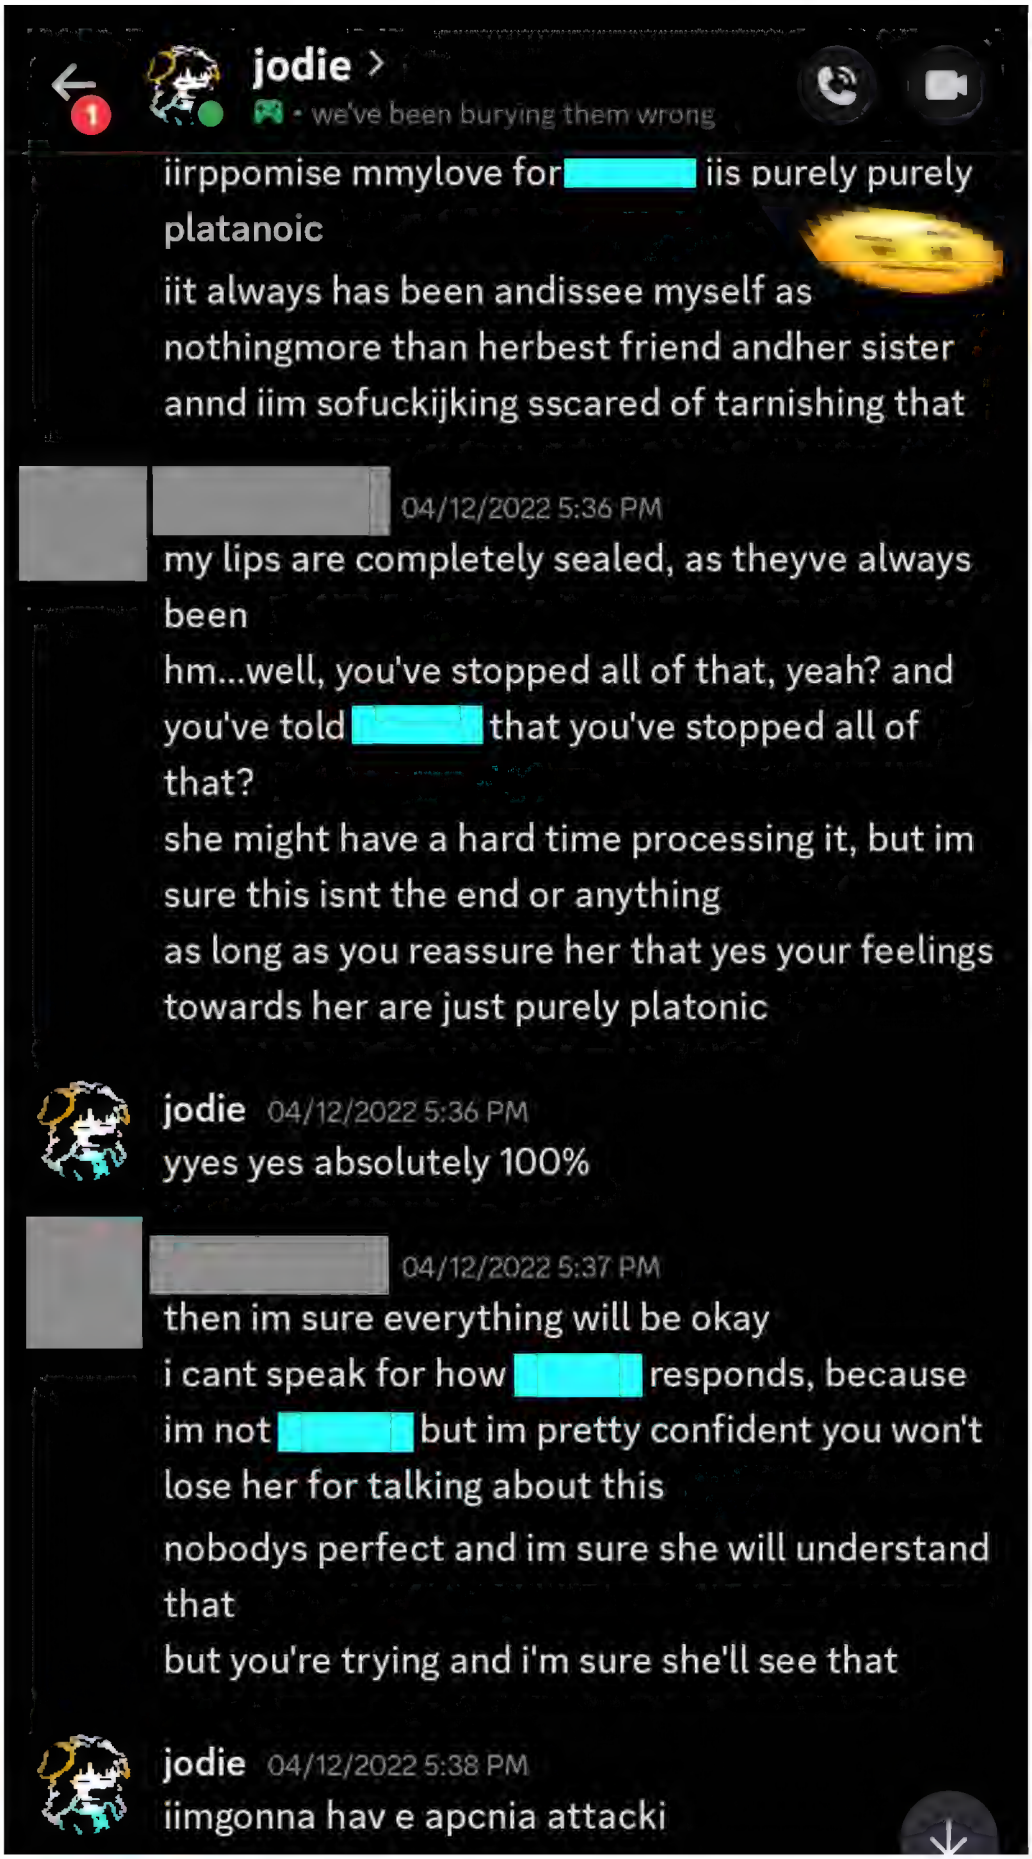
I'm disgusted that at the time she was doing these horrible acts, she was calling me her sister. And here, she's still doing it.

She admitted that she had done this when I was 15, with non-sexual art I made of her, as a platonic friend. She did not tell me that she ***imagined herself as me while pleasuring herself.*** She hid this from me through our entire relationship. It is one of the most deeply horrifying things I have ever learned.



jodie

she might have a hard time processing it, but im sure this isnt the end or anything

its in the past by now
processing this kind of stuff is difficult but a
i promise you arent gonna lose her

I wish I could say that the nightmare ended here. But literally the same day she admitted this to me, she also spoke to me about flights and coming to visit during the summer… It was an extremely awkward time to confess such a vile thing to me. My emotions were torn. I was disgusted, but she seemed so sorry….
Looking back, this was never **ever** acceptable. I'm fucking furious that this disgusting secret was hidden from me through our ENTIRE RELATIONSHIP. I feel violated and sick.

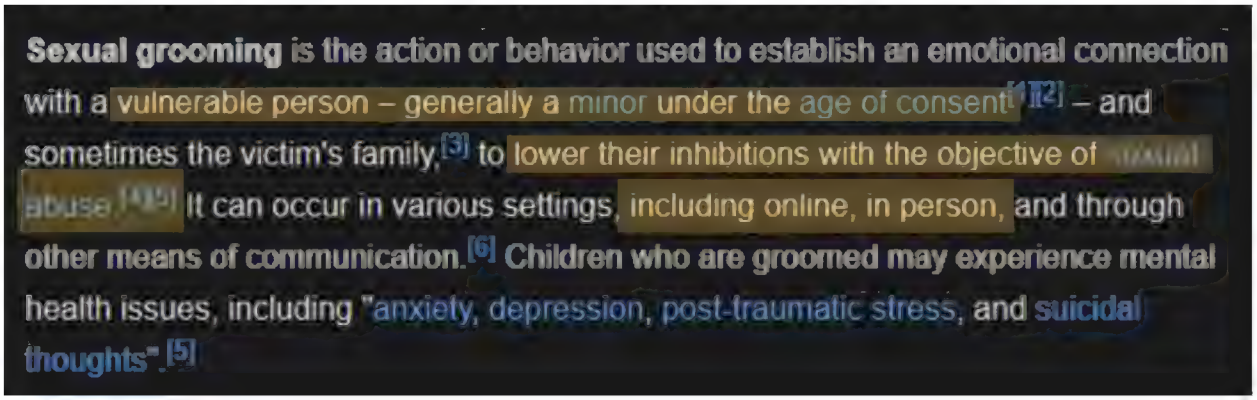
Jodie arrived in my state for a visit in June 2022. I was still in a relationship (though it was not going so great) and I had just turned 18 the month before.

The first couple days seemed normal, I guess. We went on a hike at the local park and came back home. Jodie had been complaining that her legs hurt, and when I asked why, she said it was from all the walking she was doing. Which seemed reasonable to me.

Later that afternoon, after we had gotten home and my mom was out of the house, she admitted that was a lie. Her legs hurt because she was constantly stretching and flexing them to redirect blood away from the erections she kept getting around me. She would consistently cover her lower half with blankets or sheets or pillows.

She took my hand and slowly moved it to her crotch underneath the blanket.

I don't know why I ever kissed her. This was the biggest mistake I made in my life. I was still in a relationship and I basically broke up with that guy and got with her the exact same day. I was definitely rebounding **hard** but looking back…. I kinda feel now like I was groomed. Like this was what she wanted the entire time.



Sexual grooming is the action or behavior used to establish an emotional connection with a vulnerable person – generally a minor under the age of consent[1][2] – and sometimes the victim's family,[3] to lower their inhibitions with the objective of sexual abuse.[4][5] It can occur in various settings, including online, in person, and through other means of communication.[6] Children who are groomed may experience mental health issues, including "anxiety, depression, post-traumatic stress, and suicidal thoughts".[5]

-Jodie met me during an extremely stressful and vulnerable time in my life.
-She established herself as an incredibly close person to me,
-She spoke about sexually inappropriate content with me while I was a minor, and normalized it in our conversations.

-She admitted to sexually inappropriate actions involving me while I was a minor, and tried to excuse it.
-When she eventually did visit me, she made sexual contact with me when I had *just* turned 18, and then made herself into my girlfriend.
-She alienated any other people close to me, and consumed every possible moment of my free time, so that I could *only* be around her.

Her arguments of me being "a platonic sister" all completely go out the window when you consider that we dated for 2 years.

Jodie visited me two or three more times after this. Honestly, each visit was worse than the last.

The second time she visited, we all got COVID. She would weaponize her anxiety against me and others as means of getting attention, refusing food and worrying everyone in the house until I would go and comfort her.

The third time she visited. We tried to go to Canada and have a nice time but Jodie was totally miserable the whole trip apparently, even though I thought we were having a nice time. The end of that trip was horrible. We ended up trapped in Canada for an extra day.

The fourth, and last time she visited, she was using my home as "transitional housing" while her parents looked for a new apartment for her in the UK. Originally, she was only going to stay for 4 weeks.
She ended up staying an entire extra month, running out of her medication which then became an issue for Everyone else in the house to deal with. She continued to weaponize her anxiety and stress against me and my mother, over choices that *she* made.
I didn't cry when she left that year.

After we had dropped her off at the airport and gone home, Jodie began messaging me (I think on twitter or snapchat?), desperately begging for me to come back and pick her up and take her back home. She didn't want to go back to the UK.
She told me she had run out of the check in area and out of the airport entirely, and continued begging me to come get her. I was frustrated and angry. Her ass needed to go home. She had been living in my room for the past 2 months. This massively reinforced my issues with her obsession over me and her clinginess.

Which is our next topic of discussion!

Jodie's All-Consuming Obsession

Jodie's company was often suffocating.
Wherever I was, she also had to be. She wanted to be in every voice chat I was in, every server, so that she could be with me. All the time.
I would get home from work and immediately she would ping me begging me to join vc. I work a job where I am standing for 7 hours of the day and I suffer from scoliosis. It was a frustrating and exhausting feeling being expected to spend every single free moment of my day (and night) with her.

She always expected me to call her every single night while we slept. I could never say no because she would break down and beg and plead with me to.

So many times, we would start a call just for her to start crying. I usually tried to console her but eventually I reached my limit.
I was never able to hang out with any of my other friends. She would often be extremely aggressive towards other people we hung out with, would mute+deafen every time I stepped away, and not even make an effort to converse with others in the call.

My other friends would often come to me with complaints about her aggressive and rude behavior. 99% of the time, her aggression was entirely unwarranted and out of pocket. This caused a lot of people to not want to hang out with us at all.

I would repeatedly voice my feelings about this issue and attempt to set a hard boundary. She would act like she was gonna change, but things always stayed the same.

Her jealousy and anger would cause her to go as far as to lash out in toxic and rude ways towards other people I was friends with and cared about.
She was never prepared to take any kind of accountability or consequence for her actions though. She would literally grovel and blubber at me begging for my forgiveness. This woman was 3 years older than me!
This kind of stuff made me feel like I was wrong for ever getting mad at her for her actions, because she would act "sorry"; but then she'd inevitably do the same shit again!!

It makes me sad watching me try and ask her over and over and over again to let me hang out with others, and clearly nothing ever changes, because I need to keep bringing up this issue.

This minecraft server of mine existed before I knew her. I played on it with trusted friends, and my boyfriend. I invited her, because I thought I could trust her. My mistake. Contd. Below.

jodie

yes,,
i need space from you,,

Continued below. This specific situation arose because I was spending time with another mutual friend of ours in a private call.

[redacted] 8/8/2021 2:53 PM
because this behavior is putting so much emotional strain on me that i cant take it anymore,,
i cant sleep because of it,,
i feel like we're less friends and more that i need to take care of you all the time
youre three years older than me,,
and i feel like whenever i try to do anything by myself you freak out,,
if you cant even emotionally handle the fact that im talking to somebody else then somethings wrong
when you yell at your friends and behave the way you did theres bound to be consequences , your friends might feel a bit uncomfy being around you because you yelled at them over a misunderstanding,,
you would get so angry over the fact that i was with [redacted] that you would steal my shit and blow stuff up in our world and youd block him all the time and you were mean to him,,
and if you dont make a change then its about to happen all over again,,
i dont know what to say anymore...

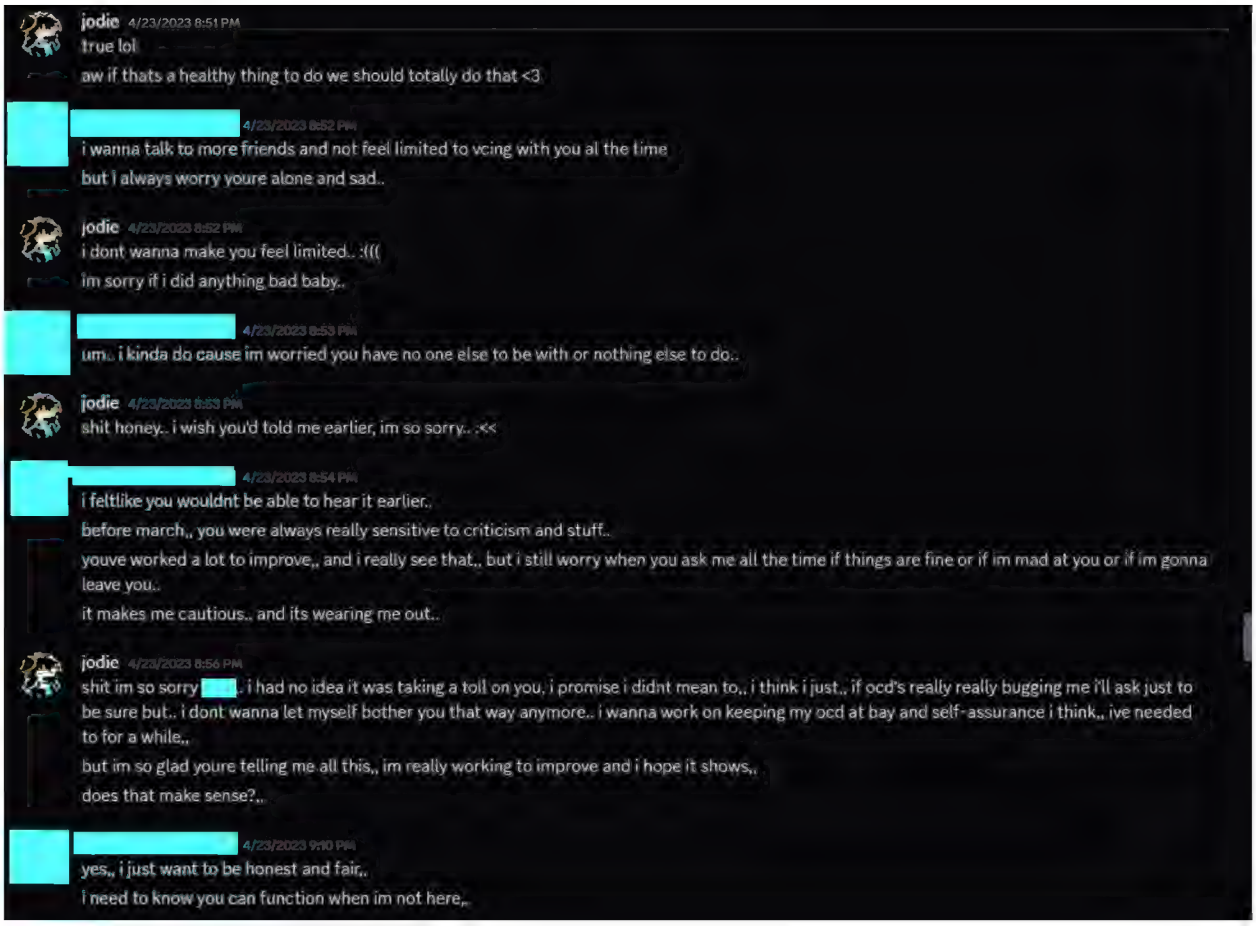
and i kept worrying more and more..
if youre gonna get high you need to not get so high you freak out like this..

Jodie would often abuse drugs, get way too high, and then make it my problem. She made me her therapist.

3/20/2023 5:39 PM
i think your first step to improving is,, you should hang out with other people more, without me involved,,
wasnt able to be your friend cause,, she felt like you would blow her off whenever she tried to hang out unless i was involved,,
and,, feels kinda the same way too
jodie 3/20/2023 5:40 PM
ohgosh what?..
3/20/2023 5:40 PM
i want you to try to be more of your own person,,
jodie 3/20/2023 5:40 PM
shit.. i like ..:(
3/20/2023 5:41 PM
likes you too,,
i think you should hang out with him, you dont even have to tell me, and just dont even talk about me,, just play games and talk to him,
sometimes i cant or dont want to be in every vc youre in,, and thats okay,,
i want you to exercise some independence from me a bit,,
okay?,
jodie 3/20/2023 5:42 PM
mhm...
3/20/2023 5:43 PM
im really serious about needing you to change,, cause the way things have been really cant work anymore.. its not healthy for a relationship,,
i dont want to have to leave you, i know you can be better,,
jodie 3/20/2023 5:43 PM
hug...
i know i can be too,,
3/20/2023 5:43 PM
but it takes a conscious effort to change,, after a while though it becomes habit,,
id also like you to try to have regular therapy sessions again,,
but this is really serious jodie,, if you refuse to change then idk if things will work between us
jodie 3/20/2023 5:45 PM
of course ,, i understand how serious this is and i want to better myself,, i feel like i already am in a way heh,,
3/20/2023 5:46 PM
i need you to show me,, dont just say stuff, do stuff,,

I constantly made efforts to push her to improve, but it felt like it never worked. She would be back to her same old behavior after 2 business days.



jodie 4/23/2023 8:51 PM
true lol
aw if thats a healthy thing to do we should totally do that <3
4/23/2023 8:52 PM
i wanna talk to more friends and not feel limited to vcing with you al the time
but I always worry youre alone and sad..
jodie 4/23/2023 8:52 PM
i dont wanna make you feel limited.. :(((
im sorry if i did anything bad baby..
4/23/2023 8:53 PM
um.. i kinda do cause im worried you have no one else to be with or nothing else to do..
jodie 4/23/2023 8:53 PM
shit honey.. i wish you'd told me earlier, im so sorry.. :<<
4/23/2023 8:54 PM
i feltlike you wouldnt be able to hear it earlier..
before march,, you were always really sensitive to criticism and stuff..
youve worked a lot to improve,, and i really see that.. but i still worry when you ask me all the time if things are fine or if im mad at you or if im gonna leave you..
it makes me cautious.. and its wearing me out..
jodie 4/23/2023 8:56 PM
shit im so sorry [redacted].. i had no idea it was taking a toll on you. i promise i didnt mean to,, i think i just,, if ocd's really really bugging me i'll ask just to be sure but.. i dont wanna let myself bother you that way anymore.. i wanna work on keeping my ocd at bay and self-assurance i think,, ive needed to for a while,,
but im so glad youre telling me all this,, im really working to improve and i hope it shows,,
does that make sense?..
4/23/2023 9:10 PM
yes,, i just want to be honest and fair,,
i need to know you can function when im not here,,

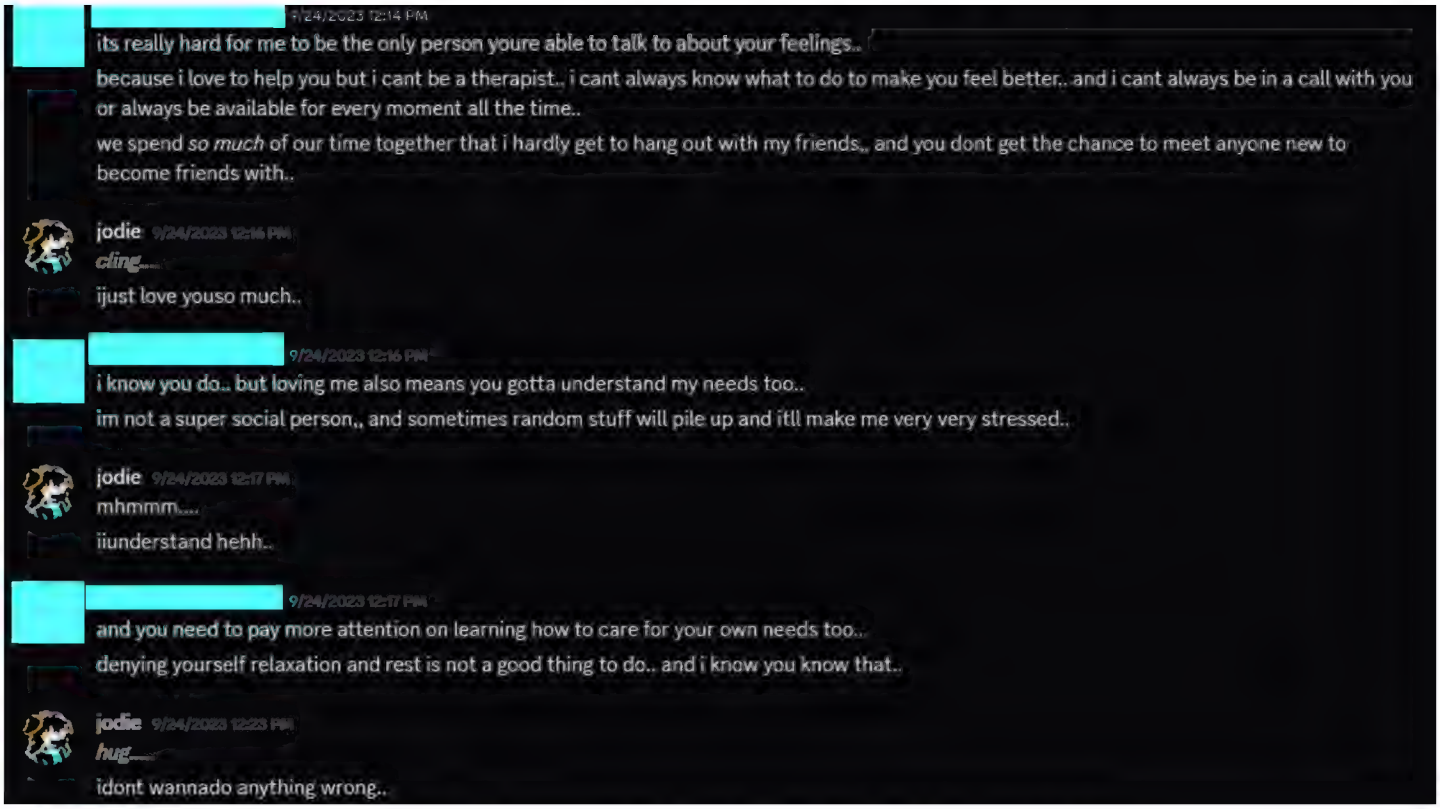
imsorry bbaby..



9/24/2023 12:14 PM
its really hard for me to be the only person youre able to talk to about your feelings..
because i love to help you but i cant be a therapist.. i cant always know what to do to make you feel better.. and i cant always be in a call with you or always be available for every moment all the time..
we spend *so much* of our time together that i hardly get to hang out with my friends,, and you dont get the chance to meet anyone new to become friends with..
jodie 9/24/2023 12:16 PM
cling....
ijust love youso much..
9/24/2023 12:16 PM
i know you do.. but loving me also means you gotta understand my needs too..
im not a super social person,, and sometimes random stuff will pile up and itll make me very very stressed..
jodie 9/24/2023 12:17 PM
mhmmm....
iiunderstand hehh..
9/24/2023 12:17 PM
and you need to pay more attention on learning how to care for your own needs too..
denying yourself relaxation and rest is not a good thing to do.. and i know you know that..
jodie 9/24/2023 12:23 PM
hug....
idont wannado anything wrong..

I try to set a boundary here, and she seems to take it fine, but nothing ends up changing.

I tell her I don't want to call, I go to sleep, and I wake up in the morning to see that she *still* tried to wake me back up to call her!!! HOW INSANE IS THAT!

I felt like I could not set any boundary with her because she would see it as me being angry. And sometimes, I WAS ANGRY! I have a right to be allowed to be angry at someone without being totally guilted for it!!!!!

I tried over and over to put my foot down here and say NO and she does everything she possibly can to get around that. It's violating and insulting.

[redacted] 1/30/2024 9:36 AM
Jodie wtf are you doing sending your deadname to people

2/6/2024 9:42 AM
i just wanna see you improve... and i dont want you being mean to my friends like that anymore..
part of the reason my friendship with dwindled was because of how aggressive you were being towards her all the time..

seriously stop doing this or im taking your mod away and this is your last warning
Audit Log
gomotion disconnected a user from voice
i tire of you taking out your anger on my friends/innocent randoms in your server
its not healthy or cool nor does it make you look good
jodie
he screamed at me..
no he didnt??
jodie
it felt like it..
when??
jodie
about me postinng when i was gonna post the vid..
but he was right.. you need to stop setting same-day deadlines for yourself and going and posting and telling everyone about it just to not follow through and beat yourself up over it for the next week..
jodie
but i was really gonna do it and i did it before with the fnaf movie video and i made tthat in a day..

This was a constant bad habit of hers. She will set super short deadlines for herself, not meet them, and then beat herself up when she doesn't meet that impossible deadline. This particular event happened when I was in the middle of talking to another friend of mine, she complained about her video deadline, he told her not to set deadlines, and we continued talking. She got pissed off at him and kicked him mid-sentence.

Warning: The below screenshots mention inappropriate public sexual conduct

Below is a conversation held between two of my mutual friends, at some point after my trip to Canada with Jodie. I visited one of these friends in Canada when I went to visit. (Redacted in Green.)

[redacted] 2/5/2024 11:47 PM
it feels like she has no self awareness
one time me and jodie just had a talk that week about me not wanting her to come to my house like we had planned cuz she was being dick
and i was in vc with her and [redacted]
talking about stuff to do while [redacted] visited
and jodie was like what if i took a plane and came down too
dead fucking silence dawg

[redacted] 2/5/2024 11:48 PM
Ughhhhhhh
So awkward

[redacted] 2/5/2024 11:48 PM
fr
even irl i had to tell her to stop grabbing [redacted] everywhere in public
ok wait im making it sound way worse than it was but still

[redacted] 2/5/2024 11:49 PM
LMAO????
GRAB IN WHAT WAY

[redacted] 2/5/2024 11:50 PM
she just grabs [redacted] anywhere anytime
grabs her stomach or face or boobs or anything

[redacted] 2/5/2024 11:50 PM
In public??

[redacted] 2/5/2024 11:50 PM
yes 😭😭
I had to tell her to stop in public

[redacted] 2/5/2024 11:50 PM
That actually made me physically uncomfortable to read

[redacted] 2/5/2024 11:51 PM
It was so fucking awkward
FR

[redacted] 2/5/2024 11:51 PM
its fine idc just not in public damn!!!!!

[redacted] 2/5/2024 11:51 PM
Right (edited)
Like ofc you're allowed to do that
But publicly. Don't do that (edited)

[redacted] 2/5/2024 11:52 PM
especially not the fucking boobs like dawg
thats when i had to tell her to stop cuz who does that 😭😭😭😭😭😭

[redacted] 2/5/2024 11:52 PM
YEAH seriously???
Ugh
That's actually so uncomfortable to hear seriously

[redacted] 2/5/2024 11:53 PM
like idc as a joke at all its just embarrassing having her do that shit
and often times [redacted] had to tell her to stop being so needy at my house

[redacted] 2/5/2024 11:54 PM
Okay I'm gonna be honest

[redacted] 2/5/2024 11:54 PM
getting third wheeled irl sucks ass

[redacted] 2/5/2024 11:54 PM
This sounds like the unhealthiest elationship ever
Last month I literally went to unrelated place with my bf and an unrelated friend
We did not have this issue

[redacted] 2/5/2024 11:54 PM
fr I did the same with my gf and unrelated friend it wasnt awkward one second
and its not [redacted] at all [redacted]s trys to make jodie be less needy when im around
its really only just jodie
and [redacted] cant tell her to stop everytime since it'd be genuinely so fucking awkward at that point
and its just rly scary the idea of bringing this up to [redacted] and her hating me for it
which is why i never had a REAL talk to her about it

[redacted] 2/5/2024 11:56 PM
Right I totally get you
That is just
Ugh.

You're Vie

THE END..?

Or just the beginning of yet another crazytime shit show?

In December of 2024, I reached my breaking point.
The results of the election that year had taken a major toll on my mental health. I was waking up in the early hours of the morning in a cold-sweat panic, I was vomiting constantly from stress, and was in and out of the emergency room. Yet, Jodie *still* expected me to be her emotional relief.

I would desperately voice to her multiple times that I am in no position to be her therapist, and that I can't handle this kind of venting right now for the sake of my own mental health.

do you need to call a hotline?..
jodie
iiwsih we couldjust live togetgher already 1:"((#
i know jodie but things are really uncertain right now...
jodie

12/9/2024 7:00 AM
Jodie I'm sorry but I can't be your therapist...
you're being really emotionally dependent on me when I really can't give that kind of support..
you need to go see a psychiatrist..
12/9/2024 7:17 AM
seriously Jodie... I have not been doing well myself for the past couple of days and I love you but your panic and anxiety only feeds mine and
when I'm already really fucked up it does not help at all
jodie 12/9/2024 7:18 AM
ttighttightsqueeze....
12/9/2024 7:19 AM
I think you need to consider having your dad take you to a hospital and have you evaluated so you can get the help you need..
jodie 12/9/2024 7:19 AM
ccuddle...
illove you...
12/9/2024 7:20 AM
maybe consider staying for a few days if you have to... because this is really bad..

jodie 12/9/2024 7:20 AM
mmhmm...

12/9/2024 7:21 AM
you should call your dad and go see a mental health specialist..
jodie 12/9/2024 7:21 AM
ookay..
yyoustil loveme?..

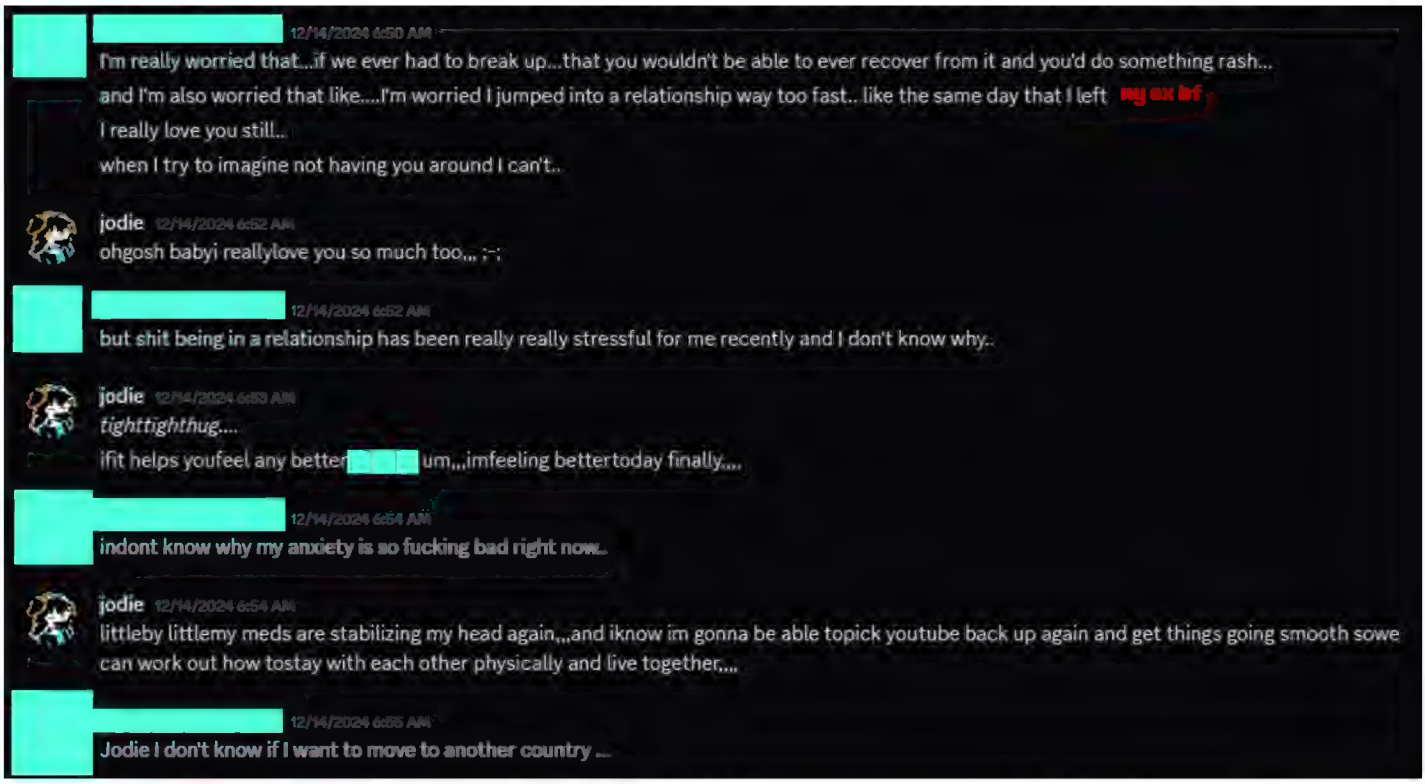
I constantly and desperately tried to remind her that *I cannot be her therapist*. But the everyday venting would not stop. I found myself dreading waking up to panicked messages from her. I dreaded going on work breaks and checking my phone to see her miserable.

I woke up on December 14th, 2024, not feeling well. I got ready and headed to work, and pretty much as soon as I stepped foot on the work floor- I had a *massive* panic attack.
I was hit with the realization that I was not happy in my relationship with Jodie, and that I needed to leave her.

I was genuinely terrified at this point that she would kill herself if I left her. But I knew I couldn't provide what she wanted from me as a girlfriend anymore. I could not handle being her therapist every single day, multiple times a day. I knew that I deserved better, and that I don't deserve to be shackled to one person for the rest of my life- especially someone online.

I ended up going home early from work that day to do a lot of serious thinking (and crying).

When I first had my realization in the morning, I tried to break it to her as gently as I could. But it didn't feel like she was hearing me, and was just trying to placate me so I wouldn't leave. I voiced my concern that she would do something serious if I left and she did not acknowledge it.



12/14/2024 6:50 AM
I'm really worried that...if we ever had to break up...that you wouldn't be able to ever recover from it and you'd do something rash...
and I'm also worried that like.....I'm worried I jumped into a relationship way too fast.. like the same day that I left my ex bf
I really love you still...
when I try to imagine not having you around I can't..
jodie 12/14/2024 6:52 AM
ohgosh babyi reallylove you so much too,,, ;-;
12/14/2024 6:52 AM

littleby littlemy meds are stabilizing my head again,,,and iknow im gonna be able topick youtube back up again and get things going smooth sowe can work out how tostay with each other physically and live together,...
12/14/2024 6:55 AM
Jodie I don't know if I want to move to another country ...

She was incredibly set on wanting to move in with me…. I didn't want to be someone's full-time in-person therapist!!!!!

After trying to express to her that I was afraid to pursue a relationship further because I didn't feel like I could emotionally provide for her, she continued pushing my boundaries, calling me pet names and downplaying what I was saying to her.

I took a long break, and came back with a response I thought about really heavily. At the time, I really wanted to continue being her friend after all of this.
But she pushed my boundaries, and it felt like she was trying to find a loophole in the circumstances I was presenting, so that I would still be her girlfriend.

[redacted] 12/14/2024 12:21 PM

Jodie... I'm ready to talk but it might be kind of a hard conversation...

but I really want you to know you haven't done anything wrong..

jodie 12/14/2024 12:25 PM

baby?..

[redacted] 12/14/2024 12:25 PM

for the past month I've been really really struggling with my mental health and it's caused my social and emotional battery to be extremely depleted and strained and I don't feel like I can sufficiently fill the role of your girlfriend... being halfway across the world from each other and dating is extremely difficult... but I really care about you so deeply and I don't want to lose you as a friend... and as your friend I absolutely can't string you along or lie to you or strain a relationship because that would do nothing but cause you a lot of hurt... and you dont deserve that.. you haven't done anything wrong... I just really desperately need space and time and energy for myself to figure out what's going on and get a therapist and get my life back together... I still want to talk to you and be your best friend...

our friendship really means a lot to me and I don't want this to be like a huge breakup because I'm not gonna like disappear or anything..

but.. you deserve someone who can be a proper partner to you who can tend to your emotional needs... I don't feel like I can maintain any kind of romantic relationship right now...

jodie 12/14/2024 12:29 PM

butI love youand im soso willingto takethings slow ifthats what youneed [redacted]...

[redacted] 12/14/2024 12:30 PM

I love you too but I can't be your girlfriend... it's causing me so much stress knowing that I can't properly be emotionally there for you...

I desperately need to spend time healing myself because I haven't felt normal in a while...

jodie 12/14/2024 12:31 PM

butyou aresweetheart,,,

[redacted] 12/14/2024 12:31 PM

please listen to me...

I know it sucks so bad and I don't want to hurt you but I can't beat around the bush...

I can't be anyone's girlfriend right now because I'm really not okay mentally...

but I still want your friendship....

and to hang out..

jodie 12/14/2024 12:33 PM

but youstill loveme?,,

12/14/2024 12:33 PM

jodie 12/14/2024 6:36 PM
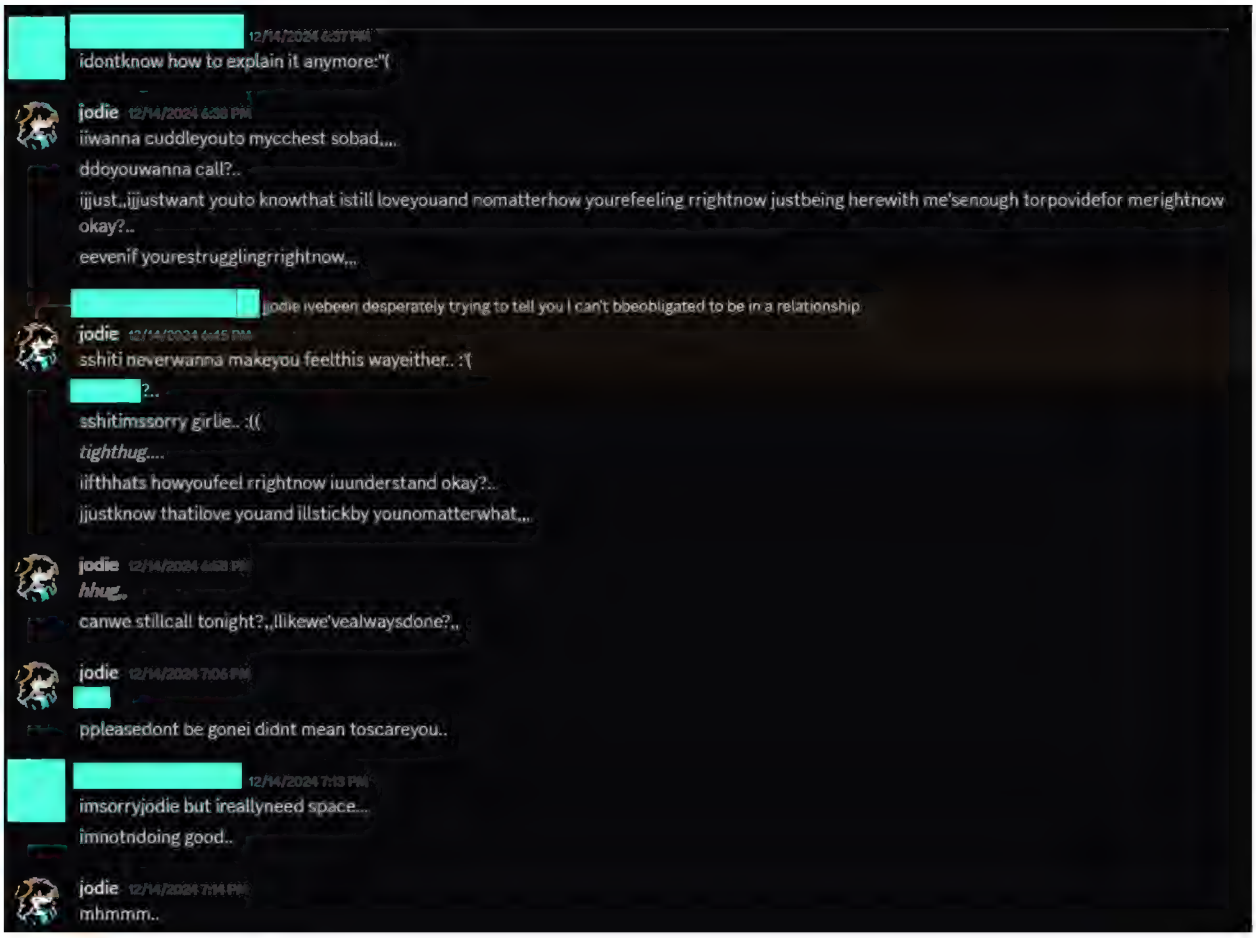
bbutim justhaving troubleunderstanding hehh,,

At this point I was getting extremely upset and exhausted. She would not accept any answer from me that was not “I love you romantically”. I felt backed into a corner, and no longer knew how to respond. I was not going to back down on the breakup. I expressed to her that I needed space from her.



She continued to message me after I told her I wanted space from her. I was eventually forced to mute her DM for my own mental health because she would not stop trying to contact me. This continued into the next morning, and she even contacted my mom asking when I would speak to her again. My mom told her to give me my space.

Jodie continued to interact with my social media accounts , and was inside of my friend's server- though she was not being active. I felt as though I was being watched, and that I couldn't use a space that I had established for myself and my friends because of her.

[redacted] 12/18/2024 4:05 PM
Yeah I can imagine
That shit's hard

jodie 12/18/2024 4:05 PM
pls dont say anything but for the past 4 days ive been bedrotting 100% of the time

[redacted] 12/18/2024 4:05 PM
Yeah I won't say anything don't worry

jodie 12/18/2024 4:05 PM
literally only getting up when my dad's been round

was i not clear??

like i still have hope that the way she's feeling right now's only temporary and that she'll feel better and differently in the future
she still wants us to see each other and wants me to visit soon when we can actually plan smth like that
but with the election and me not having been doing well the past few months its put a strain on everything
if i really get my shit together and hunker down and focus on youtube and building a bit healthier of a support system and all that, and get to a point where it's clear that i *can* survive independently (and be successful at that) itll give [redacted] a lot less to stress about when it comes to all this yknow
if that makes sense

[redacted] 12/18/2024 4:10 PM
Yeah I get you
I think right now the best thing is, like you said, just giving her space to get her thoughts and bearings together. Let her decide where things should go, and no matter what, support whatever decision she makes. But this should also be a good opportunity for you to get shit together. Try to improve your current life style and branch out your life a bit

jodie 12/18/2024 4:31 PM
from the way she was talking about things i dont think its impossible for it to work
I just need to put in a hell of a lot of work i shouldve been putting in on all fronts the past couple years
(mental healths just sucked)
and im gonna stay optimistic and like yknow
play my cards right n all that (edited)
its just scary right now of course it is

[redacted] 12/18/2024 4:34 PM
Yeah of course

She literally keeps talking about me like she can easily manipulate me.

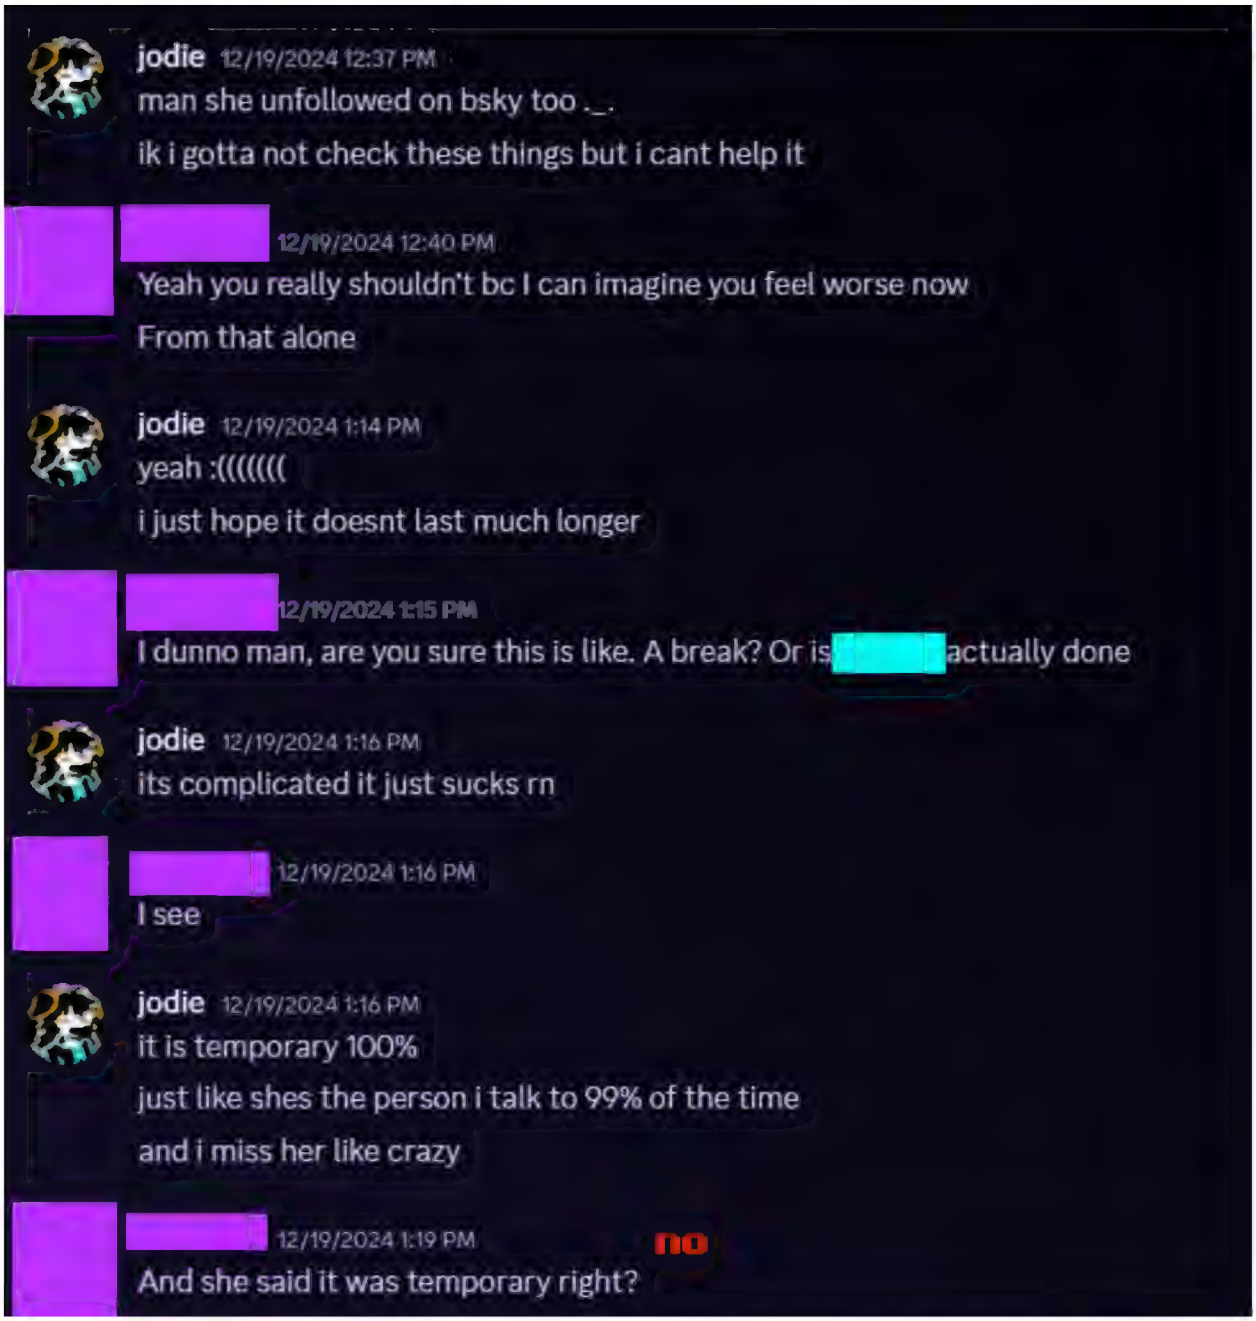
jodie 12/18/2024 4:35 PM
we both really love each other
just circumstances right now are ass
and if im in a position to ease those circumstances as much as humanely possible then that really improves the chances of this working out where we can continue what we got going

[redacted] 12/18/2024 4:39 PM
I suppose it's good to remain optimistic

jodie 12/18/2024 4:41 PM
yeah
like there's more to all this i wont share details of for privacy reasons ofc
but i feel like its a situation that can definitely be influenced positively in the near-ish future

[redacted] 12/18/2024 4:43 PM
Right, that's fair

jodie 12/18/2024 6:39 PM
ugh shit
i refollowed [redacted] a few days ago but i just checked and im unfollowing again :((
im trying so hard to like not be upset
i understand she needs space right now
we've just been talking like every day since march 2020 and this sucks so bad
we've never not been close and i know we still are and that right now its just a shitty situation but like
guhhh
[redacted] 12/18/2024 6:43 PM
I think you really just have to at least try and get your mind off of her a bit
Like obviously you're fair for being upset but the more you tread on like what she does on her socials and stuff, the worse you're gonna feel
jodie 12/18/2024 6:43 PM
i hope she isnt mad at me i feel awful
[redacted] I think you really just have to at least try and get your mind off of her a bit
jodie 12/18/2024 6:44 PM
yeah im tryna focus on videos and stuff
i just dont know what to do bc [redacted] my server was where ive always sourced talking to my friends and stuff and now im not in there right now and i kind of just dont have anywhere to chill and not stress
i live on my own now too in a big city where i know literally noone so im just like uber lonely rn
i cant even stay at my parents house anymore bc they aint got room 4 me
[redacted] 12/18/2024 6:46 PM
Yeah that's a really hard situation I'm sorry



jodie 12/19/2024 12:37 PM
man she unfollowed on bsky too ._.
ik i gotta not check these things but i cant help it
12/19/2024 12:40 PM
Yeah you really shouldn't bc I can imagine you feel worse now
From that alone
jodie 12/19/2024 1:14 PM
yeah :(((((((
i just hope it doesnt last much longer
12/19/2024 1:15 PM
I dunno man, are you sure this is like. A break? Or is actually done
jodie 12/19/2024 1:16 PM
its complicated it just sucks rn
12/19/2024 1:16 PM
I see
jodie 12/19/2024 1:16 PM
it is temporary 100%
just like shes the person i talk to 99% of the time
and i miss her like crazy
12/19/2024 1:19 PM
no
And she said it was temporary right?

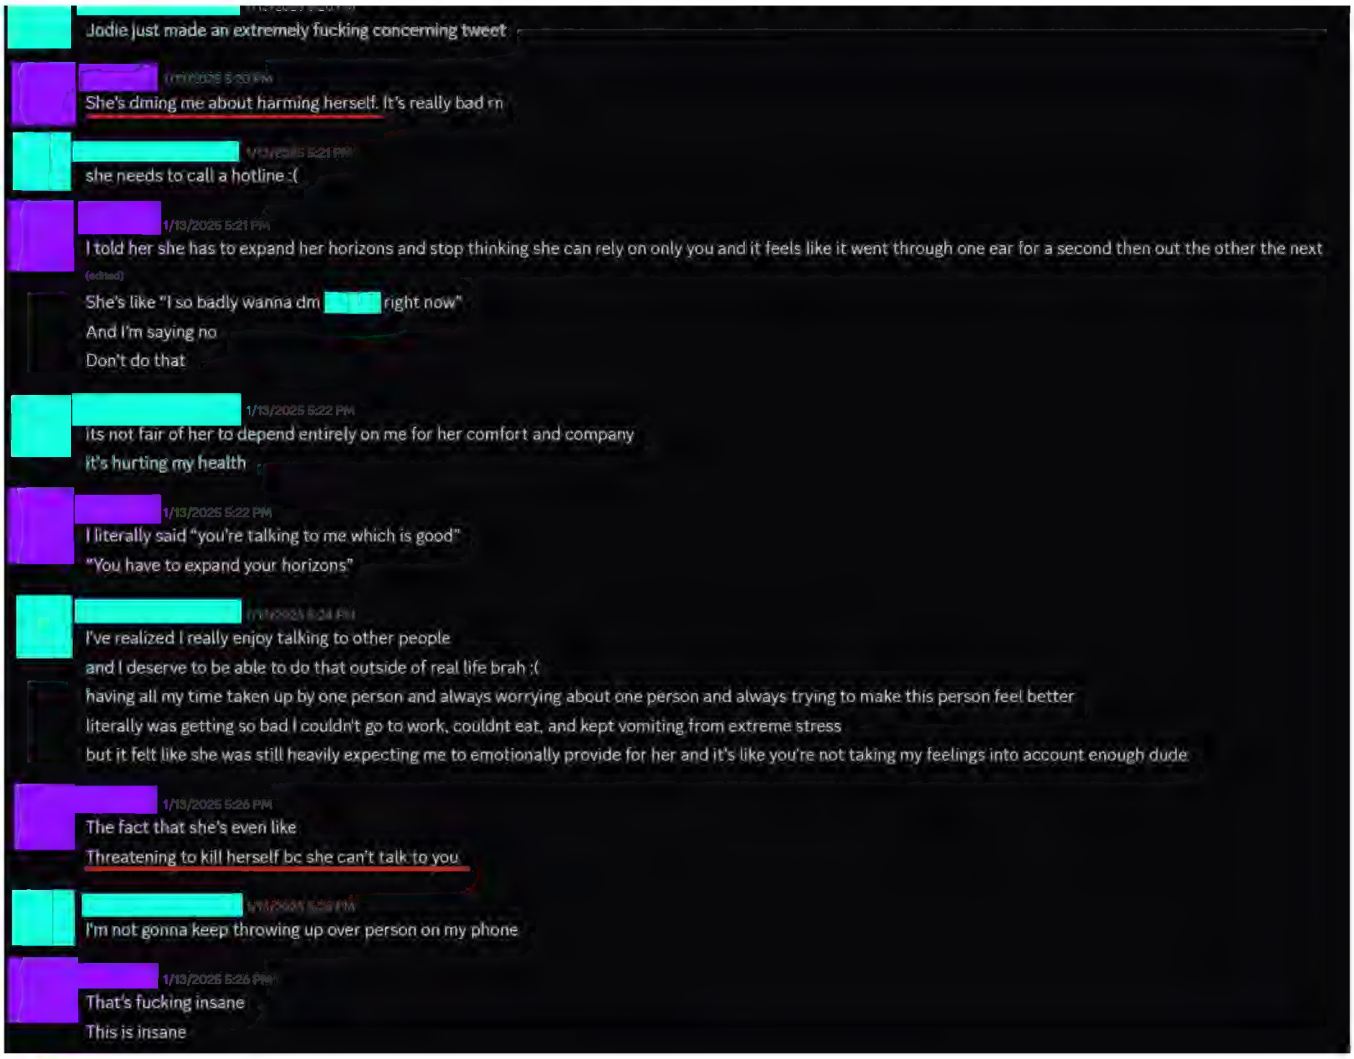
I softblocked her on bluesky and tumblr. She repeatedly followed me back. I was extremely uncomfortable and I hardblocked her on my bluesky, tumblr, and twitter accounts.

She *again* contacted my mom asking when/if I would be talking to her again, and my mom not-so-politely told her to leave me alone.

I eventually removed her from both my Steam and Discord friend's list. As soon as Jodie noticed I unfriended her, she immediately tried to add me back. Repeatedly. I would

deny the friend requests, she would wait a few weeks, and then she would try again. This would cause me serious distress.

On January 13th, 2025, Jodie made an extremely distressing tweet threatening suicide. I think it just said “goodbye”. I quickly went and spoke to a friend that still frequently spoke to her, and the situation was not looking good.



Jodie just made an extremely fucking concerning tweet
She's dming me about harming herself. It's really bad rn
she needs to call a hotline :(
1/13/2025 5:21 PM
I told her she has to expand her horizons and stop thinking she can rely on only you and it feels like it went through one ear for a second then out the other the next
(edited)
She's like "I so badly wanna dm right now"
And I'm saying no
Don't do that
1/13/2025 5:22 PM
its not fair of her to depend entirely on me for her comfort and company
it's hurting my health
1/13/2025 5:22 PM
I literally said "you're talking to me which is good"
"You have to expand your horizons"
I've realized I really enjoy talking to other people
and I deserve to be able to do that outside of real life brah :(
having all my time taken up by one person and always worrying about one person and always trying to make this person feel better
literally was getting so bad I couldn't go to work, couldnt eat, and kept vomiting from extreme stress
but it felt like she was still heavily expecting me to emotionally provide for her and it's like you're not taking my feelings into account enough dude
1/13/2025 5:26 PM
The fact that she's even like
Threatening to kill herself bc she can't talk to you
I'm not gonna keep throwing up over person on my phone
1/13/2025 5:26 PM
That's fucking insane
This is insane

[redacted] 1/13/2025 5:30 PM
She's just straight up not responding to me
Idk what else to say
I'm gonna have to be extremely blunt

[redacted] 1/13/2025 5:30 PM
idk what we're even supposed to do
this is literally exactly what I was worried about

[redacted] 1/13/2025 5:30 PM
I mean, we literally cannot do anything

[redacted] 1/13/2025 5:31 PM
I feel really really terrible right now

[redacted] 1/13/2025 5:32 PM
You just need to know that none of this is your fault

[redacted] 1/13/2025 5:32 PM
she's threatened like harming herself before and it's been fine before but it's just
I want her to get therapy

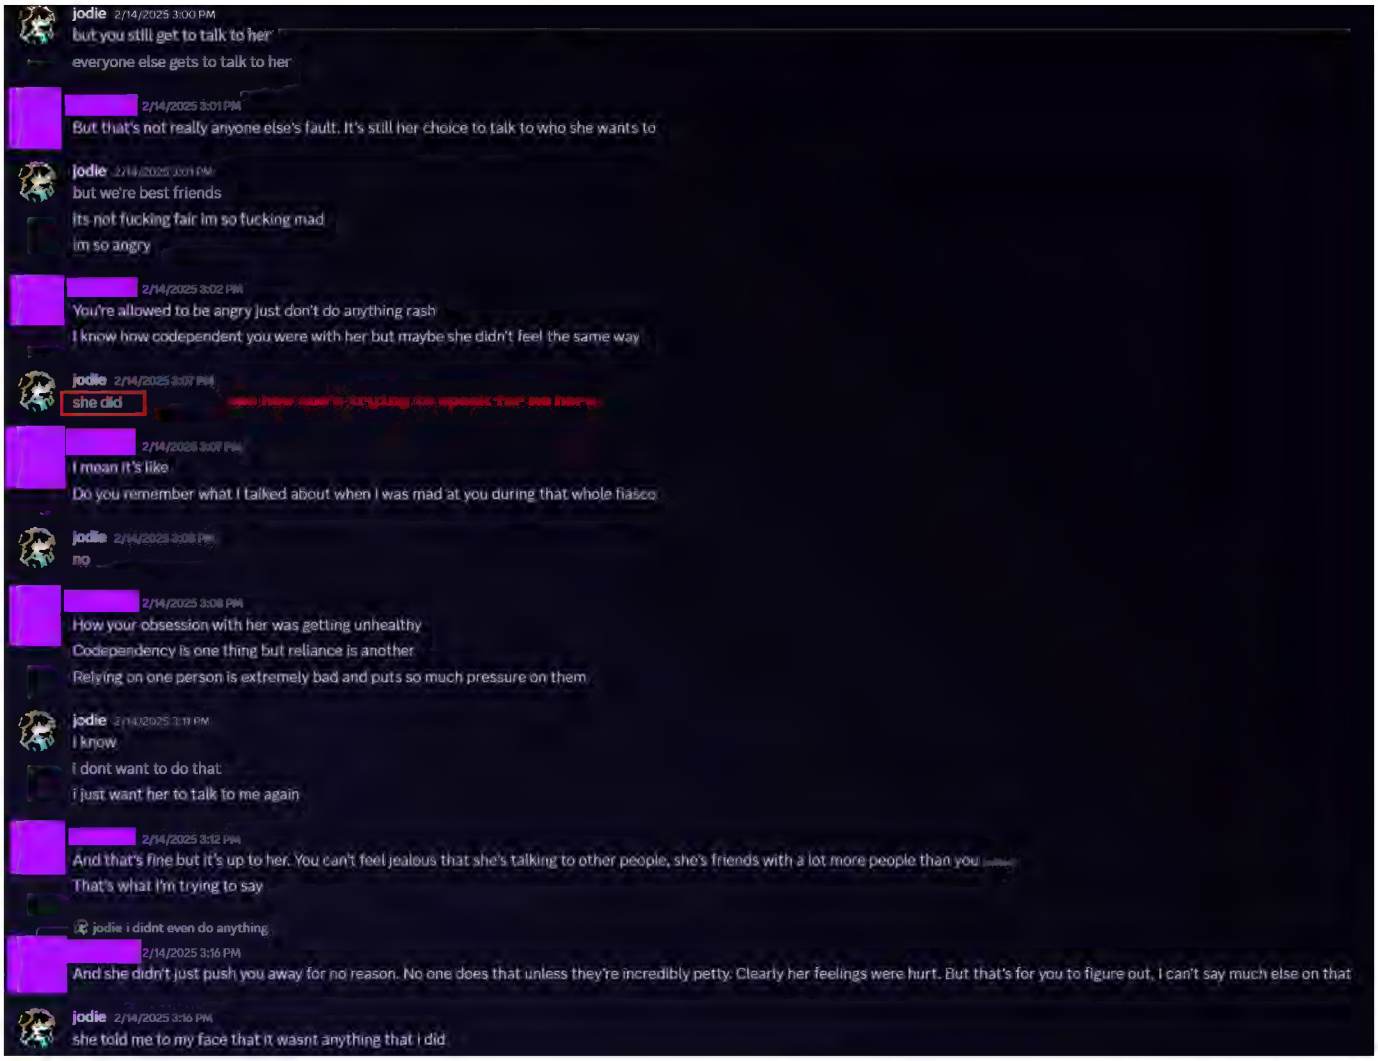
[redacted] 1/13/2025 5:33 PM
[redacted] I gotta be honest, I don't even see how you can be her friend after this
This is bad

[redacted] 1/13/2025 5:34 PM
yeah it's why I've left it so long
I have 0 idea whatsoever how I would even begin to try and talk to her

[redacted] 1/13/2025 5:34 PM
I'm worried that if you try to talk to her again, she'll just try to rope you back in
Not even relationship-wise
Just into this unhealthy destructive cycle
I know how close you guys are but this is ridiculous. The fact she's still doing it, the fact she doesn't listen. It's bad
Whatever you end up doing is up to you, I can't control that, but that's just how I feel

[redacted] 1/13/2025 5:53 PM
she's responding to my mom so this is another massive red flag for manipulative behavior

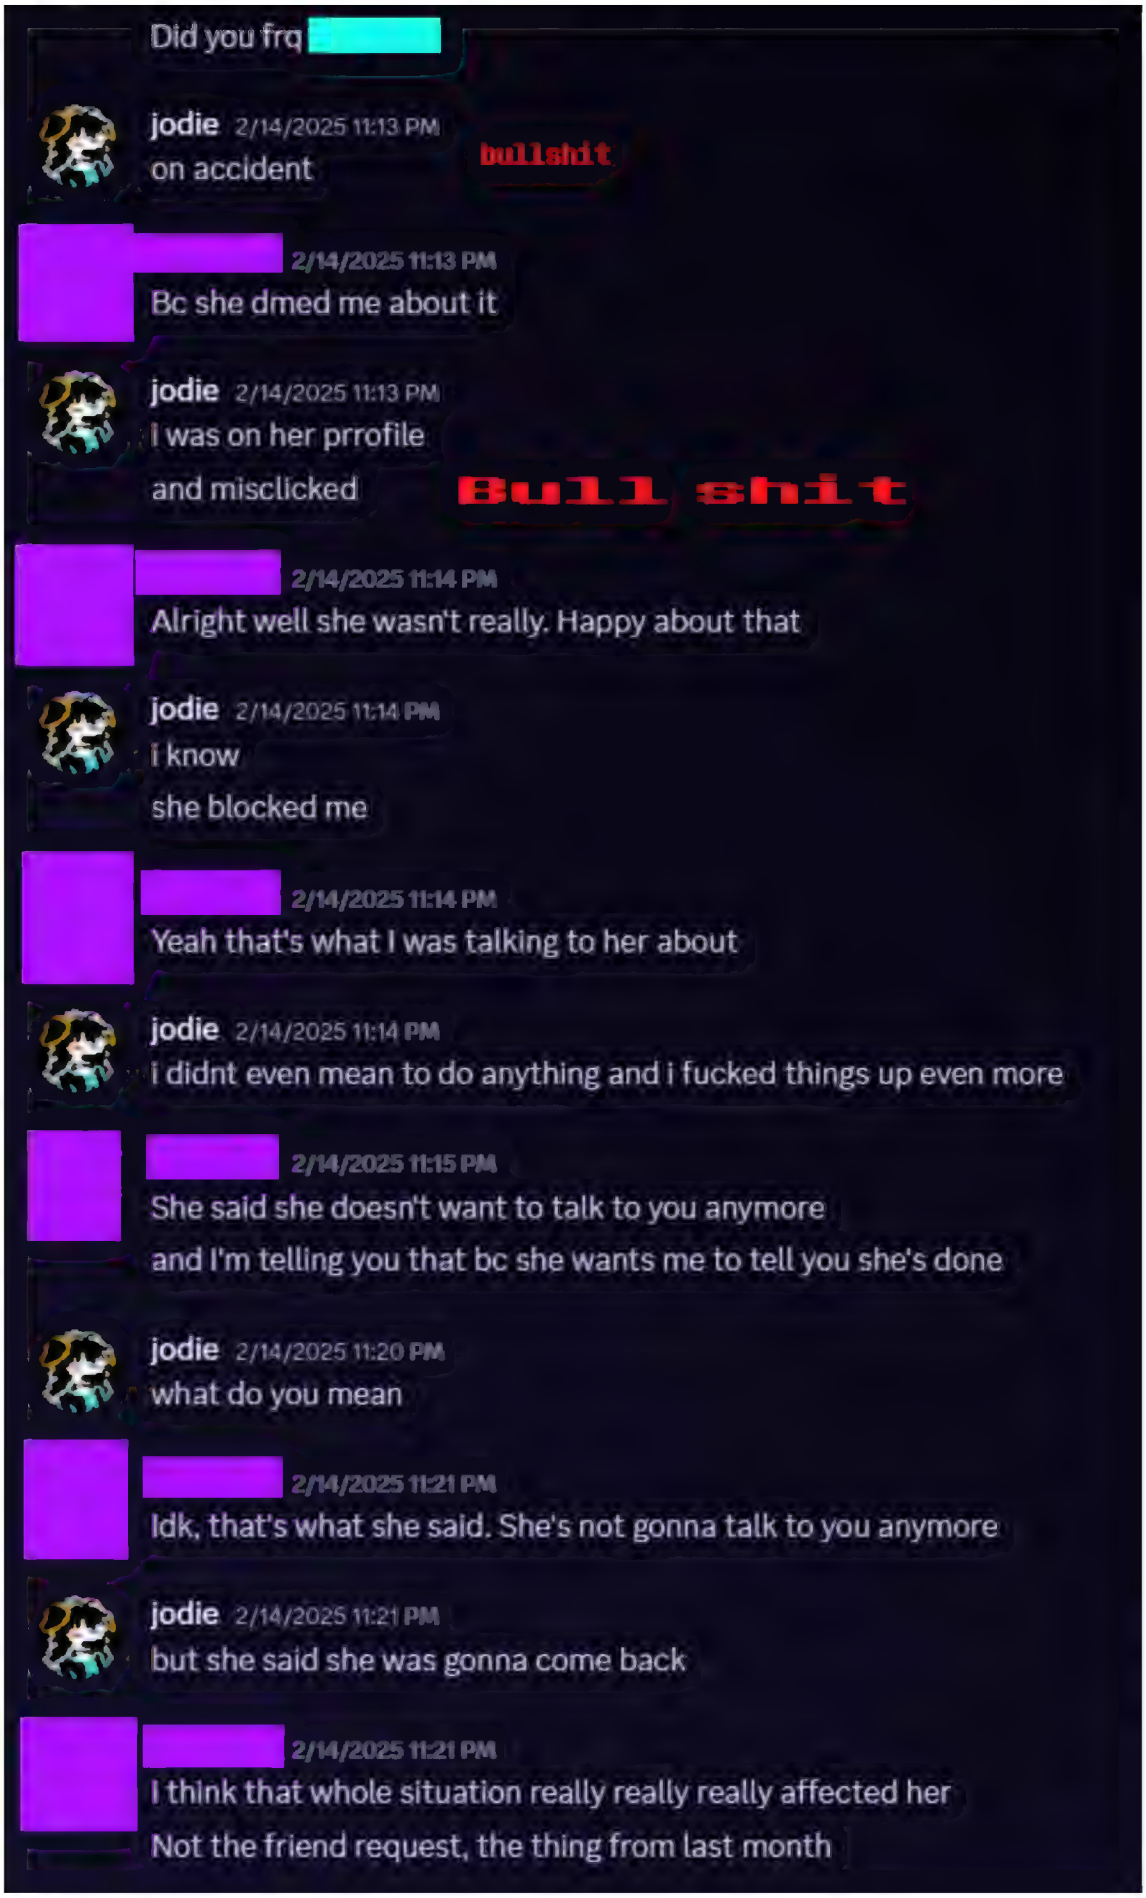
[redacted] 1/13/2025 5:53 PM
You gotta cut ties, man. I have to be completely, brutally honest. There's no coming back from this. This cycle has to stop



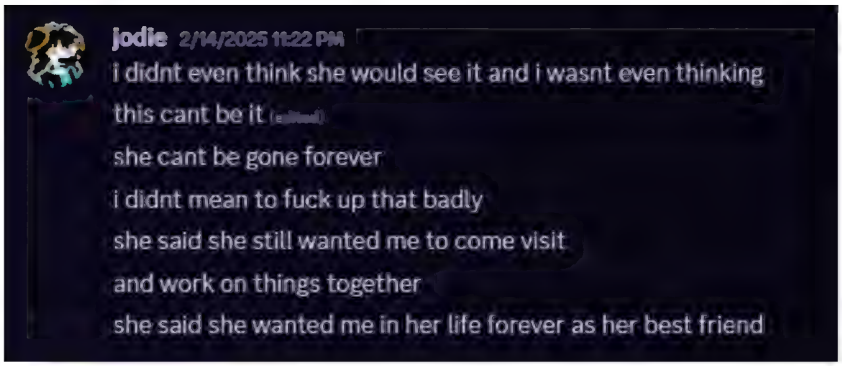
jodie 2/14/2025 3:00 PM
but you still get to talk to her
everyone else gets to talk to her
2/14/2025 3:01 PM
But that's not really anyone else's fault. It's still her choice to talk to who she wants to
jodie 2/14/2025 3:01 PM
but we're best friends
its not fucking fair im so fucking mad
im so angry
2/14/2025 3:02 PM
You're allowed to be angry just don't do anything rash
I know how codependent you were with her but maybe she didn't feel the same way
jodie 2/14/2025 3:07 PM
she did
2/14/2025 3:07 PM
I mean it's like
Do you remember what I talked about when I was mad at you during that whole fiasco
jodie 2/14/2025 3:08 PM
no
2/14/2025 3:08 PM
How your obsession with her was getting unhealthy
Codependency is one thing but reliance is another
Relying on one person is extremely bad and puts so much pressure on them
jodie 2/14/2025 3:11 PM
I know
i dont want to do that
i just want her to talk to me again
2/14/2025 3:12 PM
And that's fine but it's up to her. You can't feel jealous that she's talking to other people, she's friends with a lot more people than you
That's what I'm trying to say
jodie i didnt even do anything
2/14/2025 3:16 PM
And she didn't just push you away for no reason. No one does that unless they're incredibly petty. Clearly her feelings were hurt. But that's for you to figure out, I can't say much else on that
jodie 2/14/2025 3:16 PM
she told me to my face that it wasnt anything that i did

This entire fiasco confirmed my worst fear- that Jodie would self-harm, threaten suicide, or kill herself if I left her. I already didn't know how I could ever speak to her again, and this solidified my decision to cut her off forever. This situation was extremely distressing for me and I genuinely feared for her life- and it made me realize how much of a hold she still had on me even after I hadn't spoken to her for nearly a month at this point.

Yet, a few weeks later, Jodie friend requested me on Discord *again.* I was pissed. I blocked her immediately and I told my friend what had happened.

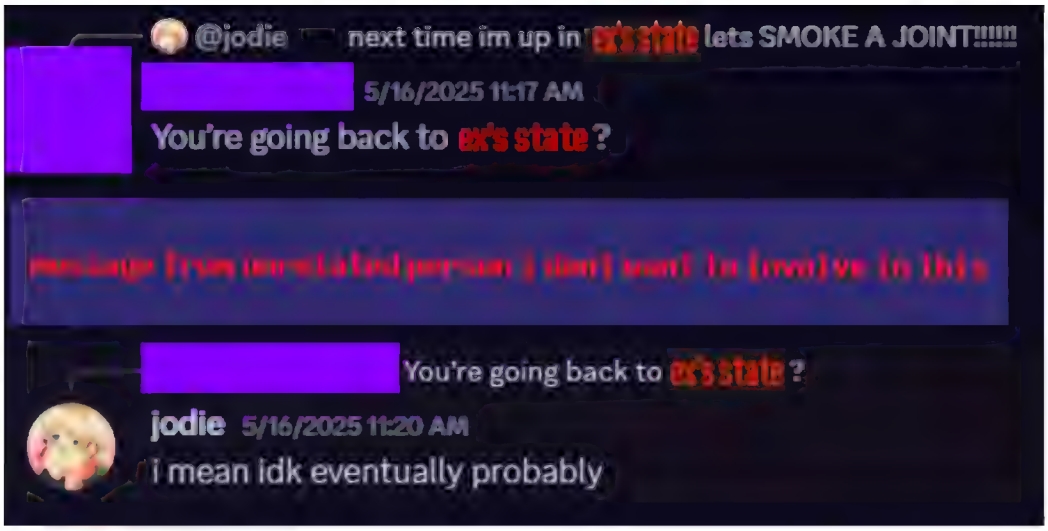


Did you frq [redacted]
jodie 2/14/2025 11:13 PM
on accident
bullshit
[redacted] 2/14/2025 11:13 PM
Bc she dmed me about it
jodie 2/14/2025 11:13 PM
I was on her prrofile
and misclicked
Bull shit
[redacted] 2/14/2025 11:14 PM
Alright well she wasn't really. Happy about that
jodie 2/14/2025 11:14 PM
i know
she blocked me
[redacted] 2/14/2025 11:14 PM
Yeah that's what I was talking to her about
jodie 2/14/2025 11:14 PM
i didnt even mean to do anything and i fucked things up even more
[redacted] 2/14/2025 11:15 PM
She said she doesn't want to talk to you anymore
and I'm telling you that bc she wants me to tell you she's done
jodie 2/14/2025 11:20 PM
what do you mean
[redacted] 2/14/2025 11:21 PM
Idk, that's what she said. She's not gonna talk to you anymore
jodie 2/14/2025 11:21 PM
but she said she was gonna come back
[redacted] 2/14/2025 11:21 PM
I think that whole situation really really really affected her
Not the friend request, the thing from last month



jodie 2/14/2025 11:22 PM
i didnt even think she would see it and i wasnt even thinking
this cant be it (edited)
she cant be gone forever
i didnt mean to fuck up that badly
she said she still wanted me to come visit
and work on things together
she said she wanted me in her life forever as her best friend

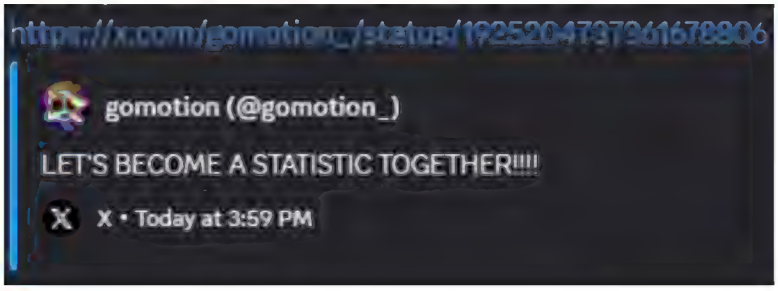
and I'm telling you that bc she wants me to tell you she's done
jodie 2/15/2025 12:31 AM
I am so
angry
at how dismissively you said this to me
im talking to about all this
2/15/2025 12:31 AM
I don't know how else to say it
jodie 2/15/2025 12:31 AM
so i dont want to like fucking die or anything right now
so dont worry
2/15/2025 12:34 AM
It's not like I can get her to tell you herself
jodie 2/15/2025 12:35 AM
ok
2/15/2025 12:35 AM
Oh come the fuck on
Don't "ok" me
It is not my fault you made her feel the way she did
Like, are you kidding me?? How else am I supposed to tell you??
jodie 2/15/2025 12:36 AM
ignore me
i apologize
2/15/2025 12:36 AM
No
I'm fucking mad
Dismissive????
I have been spending these like 3 days looking out for you and I'm trying to tell you what she told me
and you just jump on me for that????
jodie 2/15/2025 12:37 AM
I didnt mean to
i misread your tone
clearly
2/15/2025 12:37 AM
Come the fuck on man
You're Viewing Olde



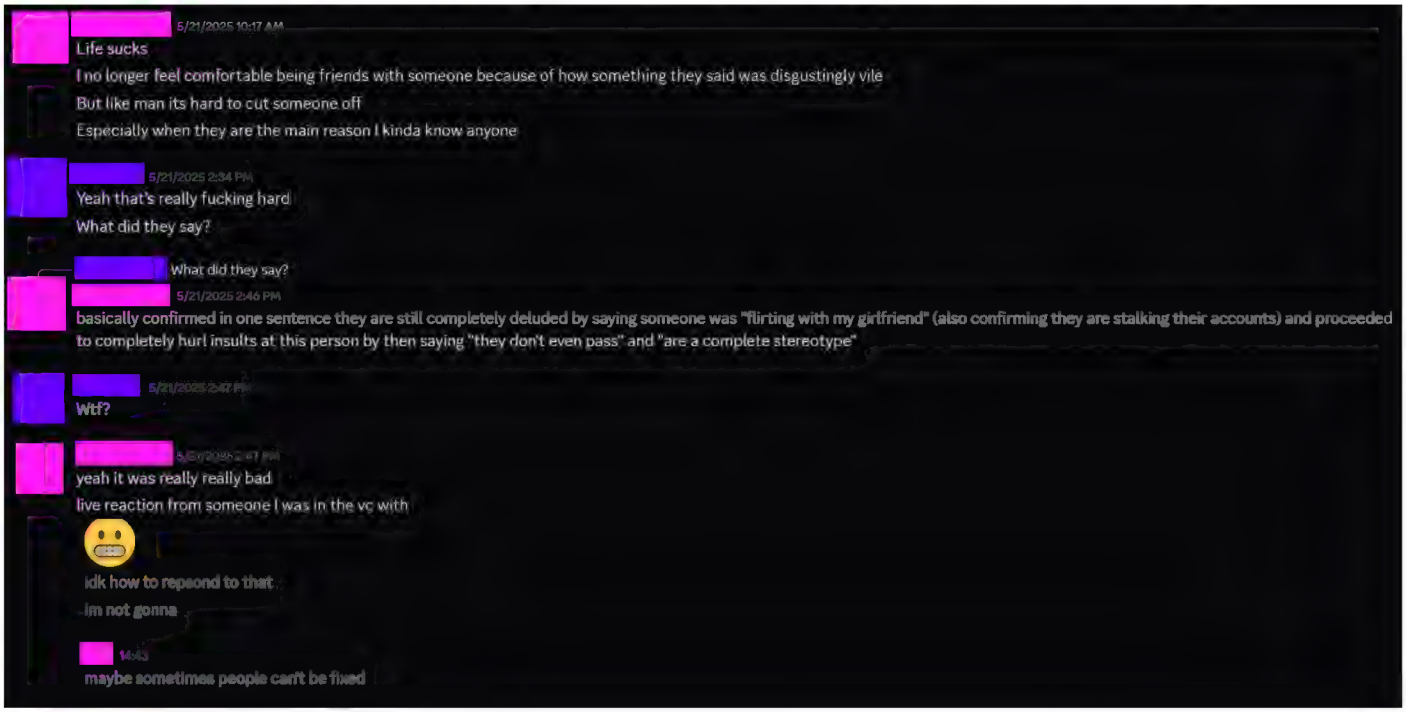
@jodie next time im up in [redacted] lets SMOKE A JOINT!!!!!!
5/16/2025 11:17 AM
You're going back to [redacted]?
[redacted]
You're going back to [redacted]?
jodie 5/16/2025 11:20 AM
i mean idk eventually probably

After this, there was mostly silence for a few months. She would still reach out to my mutual friend asking if I wanted to talk to her again, and I stood my ground with “no”. I didn’t feel comfortable asking my friends to not talk to her anymore, because I didn’t want to police other people’s friendships with her. Just because I didn’t talk to her anymore doesn’t mean other people shouldn't have to. And, things were quiet. I wasn’t hearing any drama through the grapevine, and was enjoying my life like any normal person should.

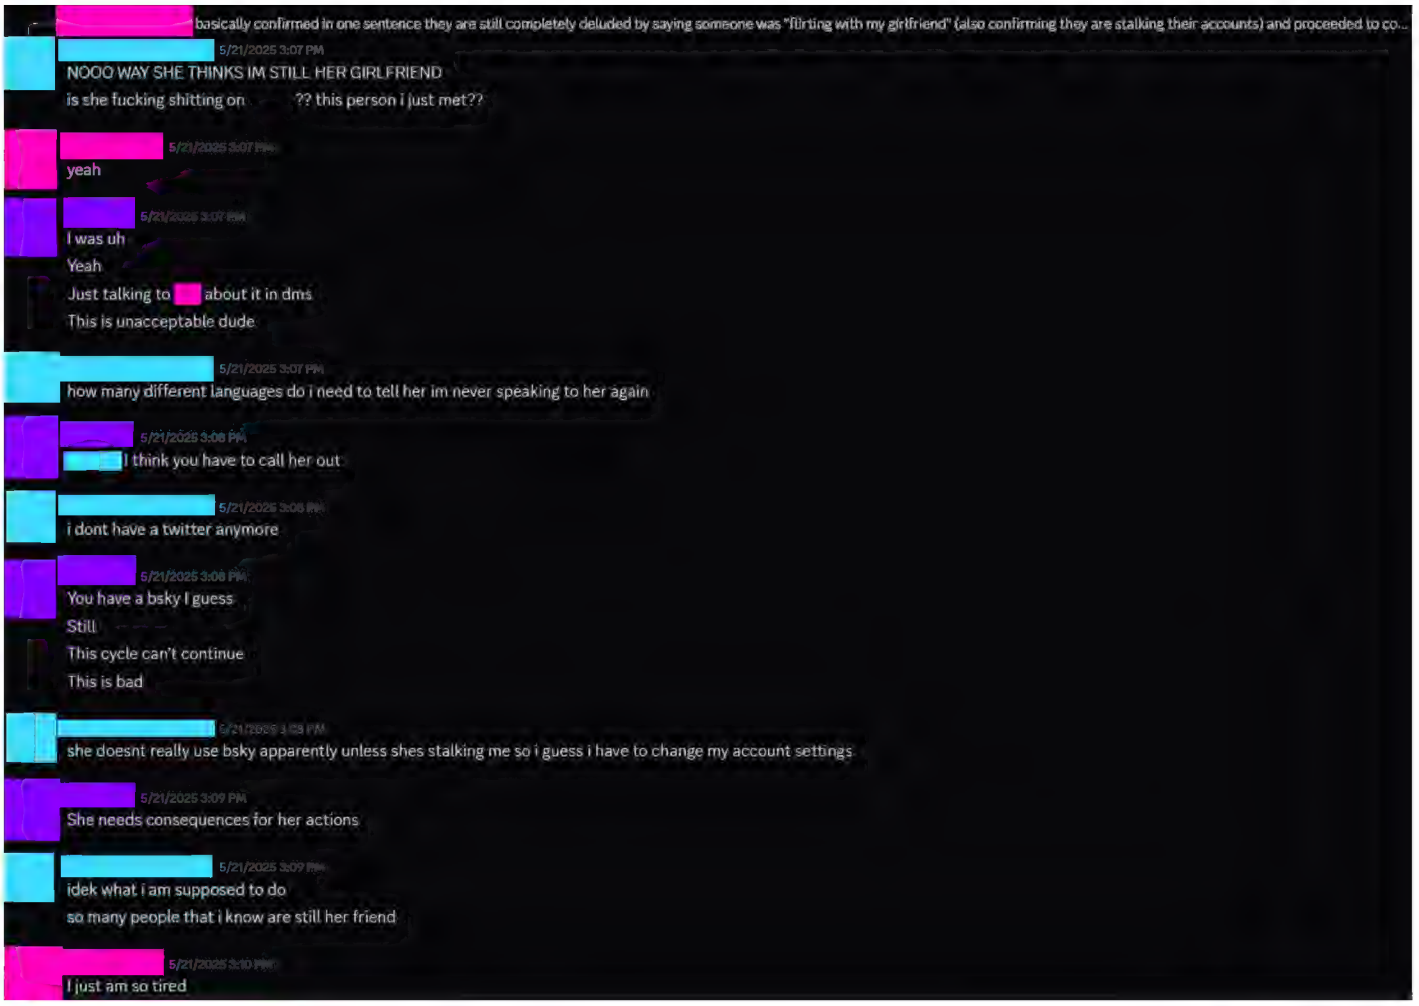
Until **May 21st, 2025**.
Jodie began making some extremely transphobic tweets. This is especially upsetting for me considering how many people in her audience are transgender or queer/questioning, and seeing someone who you thought was a good trans online role model start saying this stuff? It’s disturbing.



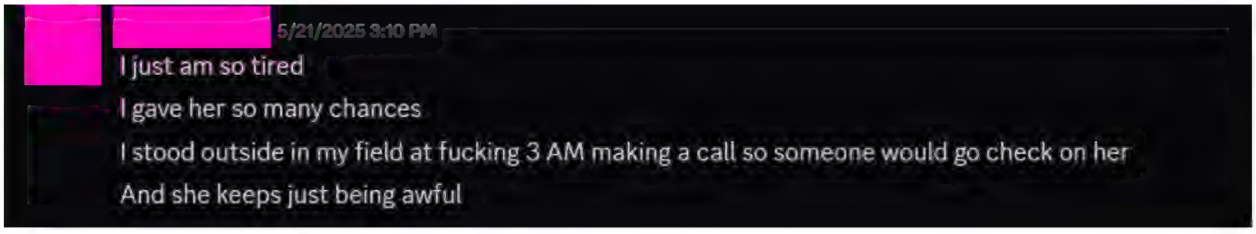
A good friend of mine later alerted us to a serious situation that was likely related to these earlier tweets.



Life sucks
I no longer feel comfortable being friends with someone because of how something they said was disgustingly vile
But like man its hard to cut someone off
Especially when they are the main reason I kinda know anyone
Yeah that's really fucking hard
What did they say?
What did they say?
basically confirmed in one sentence they are still completely deluded by saying someone was "flirting with my girlfriend" (also confirming they are stalking their accounts) and proceeded to completely hurl insults at this person by then saying "they don't even pass" and "are a complete stereotype"
Wtf?
yeah it was really really bad
live reaction from someone I was in the vc with
idk how to repsond to that
im not gonna
maybe sometimes people can't be fixed



basically confirmed in one sentence they are still completely deluded by saying someone was "flirting with my girlfriend" (also confirming they are stalking their accounts) and proceeded to co...
5/21/2025 3:07 PM
NOOO WAY SHE THINKS IM STILL HER GIRLFRIEND
is she fucking shitting on ?? this person i just met??
yeah
I was uh
Yeah
Just talking to about it in dms
This is unacceptable dude
5/21/2025 3:07 PM
how many different languages do i need to tell her im never speaking to her again
5/21/2025 3:08 PM
I think you have to call her out
5/21/2025 3:08 PM
i dont have a twitter anymore
5/21/2025 3:08 PM
You have a bsky I guess
Still
This cycle can't continue
This is bad
she doesnt really use bsky apparently unless shes stalking me so i guess i have to change my account settings
5/21/2025 3:09 PM
She needs consequences for her actions
idek what i am supposed to do
so many people that i know are still her friend
I just am so tired



5/21/2025 3:10 PM
I just am so tired
I gave her so many chances
I stood outside in my field at fucking 3 AM making a call so someone would go check on her
And she keeps just being awful

So. Jodie had been cyberstalking me over the course of multiple months. Even after I have blocked her on every single account on every single social media or whatever account that I own. She had been purposefully circumventing these blocks to watch what I was doing and delude herself that I was still her girlfriend??? This was seriously a lot to take in.

At this point I was no longer comfortable tolerating this kind of behavior without my general friend group at least *knowing* about it. I called a “chat meeting” to catch people up with the general situation and talk with them. I didn’t tell them to do anything outright but many of them were disgusted by the situation and left her server, or even blocked her.

FINALE

Wow. That was. Yep! I honestly have difficulty putting into words how absolutely nightmarish this entire relationship has been. I want to apologize to every single one of my past and present friends who have put up with this kind of behavior. None of this was ever acceptable. I'm sorry I didn't see that sooner.

I hope that this document is the push that Jodie needs to truly get up and get help. I don't believe that she is someone who can safely handle a large following of people; *especially* not a following of mainly young and potentially vulnerable people. The way that she inflicts her emotions and problems onto other people is seriously unhealthy and dangerous. Her behavior surrounding minors in the past has been dangerous. Even if she may not realize it, she is extremely manipulative.

I thank everyone who took the time to read through all of this. I know it is not an easy task and that this is not a short document WHATSOEVER. But I wanted to give as much history as I possibly could to show just how long this kind of behavior has been happening, and how many different people it has affected.

I wanted to include one more anonymous statement from someone who interacted with her closely both online and in person.

Statement from Anonymous Ms. Puff:

"I started out as a Gomotion fan when I first joined her discord server in November 2021. In March 2022 after a few months of being active on her server, I was invited to [The Tickler]'s private server. I'd hang out a ton in vc with [The Tickler] and Jodie and would become really good friends with both of them.

Later on I started hanging out with [The Tickler] in person. In January 2023, [The Tickler] came over to my house for the first time and stayed a few days, and we had to have Jodie on call with us for most of their stay. The last night of us hanging out, we decided to chill just the two of us and [The Tickler] turned off their phone because Jodie was blowing it up. The result of this was her also blowing up my phone even after I asked her to please just stop. This is when I started to realize her pattern of constantly having to insert herself into everything [The Tickler] was doing.

By January 2023, me and [The Tickler] were besties. When we'd all hang out together in vc, Jodie would always try to one-up me whenever I did something nice for [The Tickler].

She would try to take my place when I'd ask [The Tickler] for something as simple as going together to get wood in minecraft. She'd get jealous and tell [The Tickler]: "But I wanna do this with you....", or randomly be rude and interrupt me for seemingly no reason. I had multiple conversations with Jodie about how I always felt third wheeled whenever I would be in a call with the both of them. She then admitted that she was jealous of me for being able to hang out with [The Tickler] in person more than her, and that she had a fear of something romantic happening between me and [The Tickler]. Not being friends with her was rather impossible if I wanted to be able to hang out with [The Tickler] as she was ALWAYS in calls with us.

Another time when [The Tickler] was at my house in March 2023, we did a bit of shrooms. Jodie also decided to do a "heroic" amount of shrooms for her first time and had a bad trip. We had to spend a good part of our trip reassuring Jodie and taking care of her while we were also lowkey tripping and just wanted to have a good time.

After much consideration over months, I decided that it'd be okay for her to visit me and stay at my place for a few days alongside [The Tickler] in June 2023. When they were here I had to ask Jodie to stop grabbing [The Tickler]'s boobs in public, [The Tickler] also had to ask Jodie to stop being so needy in front of me as it made both of us uncomfortable.

Jodie ended up blocking me in September 2023 which I assume is because of some of the problems that happened with them going back home after visiting me in Canada. Later on in February 2024, after randomly lashing out violently at me multiple times on [The Tickler]'s discord server, I finally had enough and left the server. Even after all of that, whenever I hung out with [The Tickler] in calls, Jodie STILL had to be included despite having blocked me."

ENCORE!

Below I thought it might be enlightening just to throw a couple miscellaneous screenshots down here of Jodie's extremely erratic, aggressive, and offensive behavior. She would often randomly hurl horrible slurs at people when they weren't comfortable with it, for no reason!
Some of them are very….. **Interesting!**
